Richmond, VA 23219

Attn: Allen Knapp

Ref: Eco-Pure PBF4 Series Peat Moss Filter

Dear Allen,

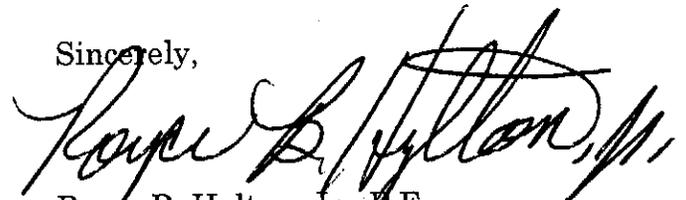

Based on previous experience, it is my opinion that the Eco Pure PBF4 Series Peat Moss Filter when designed in accordance with good engineering practice and installed, operated and maintained in accordance with the manufacturer's written instructions should be expected to meet the treatment requirements of GMP 147 as published by the Virginia Department of Health on April 30, 2009

I have examined the owner's manual dated January 2010 for this treatment unit and the maintenance manual. They appear to be adequate for this system.

Based on the above, it is my opinion that the Eco Pure PBF4 Series Peat Moss Filter should be approved for use in Virginia under the Virginia Department of Health's GMP 147 criteria for evaluation ongoing.

Please give me a call if you have any questions.

Sincerely,

Royce B. Hylton, Jr., P.E.  
Vice President
