Virginia Vaccines For Children

Virginia Vaccines For Children

Benefits

- ✓ Free vaccine
- ✓ Easy enrollment
- ✓ No cost to the facility
- ✓ Reduce patient referrals
- ✓ Ensure timely vaccinations
- ✓ Reimbursement for administration costs

Who's Eligible?

VVFC eligible patients must be under 19 years of age and meet at least one of the following criteria:

- Medicaid
- Medicaid HMO
- Uninsured
- American Indian/Alaskan Native
- Underinsured (Only at FQHC or RHC)

Patients who are NOT VVFC eligible and under the age of 19 may receive school required vaccines free of charge using stock supplied by the state. However, this can only occur at a public facility such as a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC).

ENROLLING IS AS EASY AS 1, 2, 3...

1. Call VVFC at 1-800-568-1929 to request an Enrollment Packet or visit www.vdh.virginia.gov/epidemiology/immunization/VFC and click on "Enroll Now" for the necessary forms
2. Complete and return the VVFC Registration Form and a 5 day temperature log
3. Once you receive your VVFC Membership Handbook – you're a member! You will also be contacted by a VVFC Consultant to schedule an enrollment visit to help you get started.

HPV
Influenza
Measles
Meningococcal
Mumps
Pertussis
Pneumococcal
Polio
Rotavirus
Rubella
Tetanus
Varicella

History

VVFC is a federal program established in 1994 to help raise childhood immunization rates in Virginia. Cost of vaccine and location of providers were determined to be barriers to immunization. Through partnerships with physicians, the VVFC program is designed to reduce the effects of these barriers. VVFC provides federally purchased vaccine, at no cost to health care providers, for administration to eligible children.
