## Reminders

Influenza activity is on a decreasing trend but the virus is still circulating. Stop transmission at home when a family member develops influenza like illness, [click here](#).

It remains very important to receive both the 2009 H1N1 and seasonal flu vaccines in order to prevent the spread of illness this flu season.

**Stay home when sick and limit your contact with others**  
**Cover your nose and mouth when coughing or sneezing**  
**Wash your hands; especially after coughing or sneezing**
