- A. The Office publishes and maintains the Scope of Practice Procedures and Formulary which specifies the medical procedures and medications identified as the *Standard of Care* for use by each EMS certification level issued by the Office as endorsed by the Medical Direction Committee and approved by the EMS Advisory Board.
1. Medical procedures or medications not included on the Scope of Practice Procedures and Formulary are not considered the *Standard of Care* recommended for EMS personnel except as provided in 12VAC5-31-1070 of state EMS regulations.
- B. For state certification and recertification purposes students should be familiar with the Scope of Practice Procedures and Formulary as outlined for the certification level being tested.
