

**Virginia Department of Health  
Office of Minority of Health and Public Health Policy  
Internship Project Overview**

**Name of Project:** Behavioral Risk Factor Surveillance System Results Analysis

---

<b>Brief Description of Project</b>	Analyze behavioral risk factor surveillance system results for 2008 on "Reactions to Race" and "Social Context." OMHPHP and partners had 2 modules added to the survey ("reactions to race" and "social context"). Results would be analyzed to determine responses based on race/ethnicity and SES. Analysis would be conducted to determine association between responses within each module and behavioral and risk factor responses. Additional analyses would be based on intern's interests.
<b>Estimated # of Hours/Timeframe of Project</b>	3-5 months
<b>Level/Qualifications Needed/Preferred</b>	<ul style="list-style-type: none"><li>• Masters or Doctoral student preferred</li><li>• Experience with SAS or SPSS</li></ul>
<b>Paid</b>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
