

Virginia Department of Health
 Division of Disease Prevention
 Tuberculosis Control & Prevention
 Emergency Evacuation Planning Form

109 Governor Street, Room 326
 Richmond, VA 23219
 804-864-7906
 804-371-0248 FAX

Please provide the following information for each individual that may potentially be evacuated during an emergency situation in the following categories: active cases currently on treatment, suspects currently on treatment, contacts to MDR-tb receiving preventive treatment and individuals receiving window prophylaxis. Complete 1 form for each individual patient. FAX the completed form to 804-371-0248. Provide surgical masks to any potentially infectious client.

Provide a copy of this form to the client and advise the client to seek assistance at a local health department near their current location as soon as emergency conditions permit. Advise the client to call 804-864-7906 for any problems or assistance in locating a health department.
