

# ADAP Program Updates

**HIV CARE SERVICES  
DIVISION OF DISEASE PREVENTION  
VIRGINIA DEPARTMENT OF HEALTH  
AUGUST 9, 2016**

# Enrollment Update

**Enrollment Numbers as of 8/2/2016**

**Total: 6,020**

**Direct ADAP: 1,564**

**MPAP: 557**

**ICAP: 491**

**ACA/HIMAP: 3,408**

# ADAP Formulary Update

**Descovy (emtricitabine, tenofovir alafenamide) was added to the VA ADAP Formulary effective July 20, 2016.**

# Recertification Reminders

- **VDH is required to recertify clients twice per year. Clients are due for recertification both the month of their birthday, and 6 months after that date. We ask for assistance from our Local Health Departments, medical providers, and community partners to remind clients that they are due for recertification and to submit any changes or updated information to VDH. This includes changes in insurance, phone number, address, etc. We are trying to aggressively pursue getting all clients recertified so there may be influx of requests from ADAP staff.**

# Recertification Reimbursement

In order to remain in compliance with the Health Resources and Services Administration (HRSA) policy regarding updating client eligibility every 6 months, the Virginia Department of Health (VDH) will reimburse contract sites for returning completed recertification documents for enrolled clients. **These payments will be made until December 1, 2016.** VDH conducts recertification during the clients' birth month and 6 months thereafter. Recertification documents are sent to clients 2 months prior to when they are due and are requested to be returned during the actual month of recertification.

If the client's birthday falls in the recertification month, he/she is expected to return a **3-page recertification application** including proof of income documents and updated lab values.

If the client's birthday is 6 months from the recertification month, he/she is expected to return a **self-attestation document**, attesting that there have been no changes in address, income, or insurance status. If any of these criteria have changed, supporting documentation is required.

# Hepatitis C/HIV Treatment Assistance Program

- **There are a total of 60 clients that have accessed the program; 35 have completed therapy and 25 are currently on treatment.**

# Affordable Care Act

- **2017 Open Enrollment Period is from November 1, 2016-January 31, 2017**
- **VDH has reached out to the Bureau of Insurance to obtain preliminary 2017 ACA plan information. VDH will continue to communicate with stakeholders and clients once approved VDH plans have been selected.**
- **Letters will be sent prior to open enrollment based on insurance status.**

# Affordable Care Act

- Clients should continue to report any changes to the Marketplace and VDH including change of income, residence, and other coverage including Medicaid or Medicare.
- It is important to communicate any changes to insurance premiums to VDH.
- Refunds of premium tax credits should be sent to VDH.
- Clients enrolled into insurance plans should be utilizing this insurance and no longer accessing medications through the Local Health Departments.

# MPAP Open Enrollment

- Medicare Open Enrollment is from October 15, 2016-December 7, 2016
- Letters will be sent to clients already enrolled in MPAP and those that need to enroll in MPAP in September.
- Documents needed:
  - ✦ Front and back copy of Medicare card
  - ✦ Front and back copy of Part D or Part C card
  - ✦ Proof of monthly premium in the form of the coupon booklet or if AARP client, letter sent to client with premium amount.
  - ✦ LIS status letter, if applicable
