

The Virginia Perinatal Hepatitis B Prevention (VPHBP) Program is updating the contact list of hospitals for reporting babies born to HBsAg positive mothers.

PLEASE COMPLETE THE INFORMATION BELOW AND FAX TO (804) 864-8089

1. **Hospital Name:** _____

2. **Contact Name and Title:** *(Individual to receive reports of pending deliveries)*

3. **Contact Address:**

(Phone:) _____ (Fax:) _____

E-Mail: _____

Currently, the VPHBP Program notifies hospitals of pending deliveries by mail 30 days prior to estimated delivery date.

4. **Would you prefer to receive these notifications (Mother's HBsAg positive lab and Infant Information Form) by fax 30 days prior to delivery? (Yes) _____; (No – please continue to mail) _____**

5. **Would you prefer to receive these notifications sooner? (Yes) ____; (No) ____.**

6. **If "yes", when would you like to receive these notifications?**

Please remember to report ALL babies born to HBsAg positive mothers and include copy of HBsAg positive lab result of mother (if necessary).

Reports can be faxed to (804) 864-8089

Questions: Please call Marie Krauss: (804) 864-8055; 1-800-568-1929

Thank you very much for your time.
