- MMR 2nd dose
- Varicella 2nd dose

**Minimum interval 12 months after previous dose**

### 4-6 Years
- DTaP 5th dose, minimum age 4 years
- Polio 4th dose, minimum age 4 years

**Annual Flu Vaccine For Everyone 6 Months and Older**

**Combination Vaccines**
- Many vaccines are combined into one shot. This is proven to be safe and effective, helping lower the number of shots your child will get.

**Herd Immunity**
- This protects your community from disease by immunizing as much of the community as possible. This helps protect babies, the elderly, and others who get sick easily!

- HPV 6-12 months after 1st dose
- MCV4 2nd dose

13 Years
- HPV

16-18 Years
- MCV4
- MenB*

Annual Flu Vaccine For Everyone 6 Months and Older

School Requirements
The Code of Virginia requires children entering daycare, public and private schools to give proof of vaccination before enrolling in school. The vaccines should be given based on the schedule recommended by the CDC, American Academy of Pediatrics, and American Academy of Family Physicians. Visit our website to learn more about the school requirements.

Vaccine Catch-Up*
If your child is missing any vaccines, be sure to ask your provider about the catch-up schedule so your child is fully protected.

HPV Vaccine
The HPV vaccine is the only vaccine that helps to prevent cancer! In Virginia, it is required for entry into 6th grade. Please be sure your child finishes the HPV vaccine by age 13, for the most protection. If your child is 15 years or older at the time of the first shot of HPV, they will need 3 doses for full protection.

Meningococcal & MenB*
Older teens and young adults (ages 16-23) can receive the MenB vaccine. It is given based on provider recommendations. Depending on the school, teens may need the vaccine before going to college.

Vaccine Abbreviations
- HepB- Hepatitis B vaccine
- DTaP- Diphtheria, tetanus, and pertussis vaccine
- Hib- Haemophilus influenza type b vaccine
- HepA- Hepatitis A vaccine
- MMR- Measles, mumps, and rubella vaccine
- PCV- Pneumococcal Conjugate Vaccine
- Tdap- Tetanus, diphtheria, and pertussis vaccine
- MCV- Meningococcal Conjugate Vaccine (ACYW)
- MenB- Meningococcal Conjugate Vaccine (B)
