Topic/Subject	Discussion	Recommendations, Action/Follow-up; Responsible Person
Status Review	Brief review of previous meeting: Each identified indicator was prioritized with ranking order of 1-5 (1 of high priority and 5 a down the road goal). Any indicator that had a current status score of 4 or 5 was not ranked at this time. At the conclusion of this work, the group identified 1-2 priority recommendations for each	None
Current Progress	The focus of this meeting was to create a PICK chart based on the 26 indicators that were priority ranked at a 3 or lower. We were able to complete this work for the MIS goal only.	See attached PICK document
Next Steps	The group will need to perform the same process for the education, system evaluation and research goals, which can be completed at the September meeting.	
Public Comment	None
