Virginia EMS Symposium Mobile App Available on Apple and Android

Download the Virginia EMS Symposium mobile app to stay updated during this five-day training event. Android and Apple users can download the free mobile app named, "**VA EMS Symposium**". The app replicates the Virginia EMS Symposium On-Site Guide, so you'll have everything you need to know, on the go! For quick mobile app access, you can scan the QR codes below.

Registrants can access their personalized class schedule when they log in to the app. When signing in, apply the same user name as used for the symposium registration. For Virginia providers, use your Virginia EMS number. Registrants can use the same password as used for symposium registration (Virginia provider portal password) or, registrants can use their birthdate and year combination PIN (DDYY). Example: The registrant's birthdate is March **05**, 19**72**; their PIN would be 0572.

Let's get started! Download the app by opening the Google Play or Apple App Store and search for the "***VA EMS Symposium***" app. Once you download the app a star of life icon will appear on your home screen. Click on that icon to access the app anytime.

If you're having trouble downloading the app, you can utilize the web app at this link: https://vdhems.vdh.virginia.gov/emsapps/symposium-mobile.html. **For more assistance with the app, please visit the registration desk, 3rd floor, Marriott.**

App Features Include:
