

# First Ride Safe Ride Resources for Health Care Providers

The Virginia Department of Health has made the following free child passenger safety resources available for health care providers. Please allow 2-3 weeks for delivery.

## A Parent's Guide to Protecting Your Baby With a Child Safety Seat

This guidebook and instructional DVD highlights important steps that every parent should take to ensure the best protection of their infant in a child safety seat.

English (increments of 25) \_\_\_\_\_

Spanish (increments of 25) \_\_\_\_\_

## Health Care Provider Guide to Child Passenger Safety for Newborns

Following the American Academy of Pediatrics Guidelines, this resource will assist health care providers in educating parents of newborns on the best practices in child passenger safety.

Quantity \_\_\_\_\_

## 4 Steps to Child Passenger Safety: Flipbooks

Guides parents in selecting the best type of safety seat for their child. Display this small flip chart in patient waiting areas or exam rooms. Not to be distributed to parents.
