^ See definitions under [Technical Notes](#)

\* This report has been updated to include only HIV/AIDS cases first reported between calendar year 2006 and report date, regardless of current case mortality status;

-AIDS cases previously reported as HIV outside this time frame are not counted.

-HIV cases reported during this time frame that were afterwards diagnosed as AIDS during the same time frame are only counted once.

\*\*\*Age at first diagnosis, whether HIV or AIDS.

`` The risk category other includes: Adult Hemophilia, Pediatric risk(s), Perinatal, Transfusion, along with Not Interviewed and cases reported with no Identified Risk (NIR).
