* This report has been updated to include only HIV/AIDS cases first reported between calendar year 2006 and report date, regardless of current case mortality status;

-AIDS cases previously reported as HIV outside this time frame are not counted.

-HIV cases reported during this time frame that were afterwards diagnosed as AIDS during the same time frame are only counted once.

***Age at first diagnosis, whether HIV or AIDS.

- * This report has been updated to include only HIV/AIDS cases first reported between calendar year 2006 and report date, regardless of current case mortality status;
 - AIDS cases previously reported as HIV outside this time frame are not counted.
 - HIV cases reported during this time frame that were afterwards diagnosed as AIDS during the same time frame are only counted once.
