

School Principal/Office Staff Announcement Script

Use this copy when making announcements over the public address system in the morning, during assemblies, and in other student gatherings.

“Good morning students. Did you know that singing ‘Happy Birthday’ several times a day can prevent the flu? With flu season upon us, if you sing ‘Happy Birthday’ twice while you’re washing your hands, you will be sure to wash away all of the germs that cause flu. And remember to cough or sneeze into the crook of your arm, not into your hands, so your hands stay germ-free. If you do get the flu, please stay home. Thank you for helping us all keep our germs to ourselves and our school healthy.”
