

## RRMRC Volunteers by Profession and County

**Two Hundred and Sixty-one of the volunteers included below have completed their orientation.** The orientation provides the volunteers with their badge and t-shirt which are essential to work at a dispensing site.

**Ninety-eight volunteers and staff are needed to work each shift at each dispensing site.** The health department has approximately 100 employees. If you include all RRMRC volunteers who have attended orientation, and all the health department staff, we only have enough people to open **2 dispensing sites for 2 shifts. In a full scale event we will need four sites.**

**PLEASE HELP the RRMRC grow! Ask your family members, friends & neighbors to join today!**

Children 16-18 can join the RRMRC with parental signature. They can respond in an event with their parents. If you belong to a group, church or organization and would like to have a presentation on Pandemic Influenza, All-Hazards Preparedness, and the role of the RRMRC please contact the office.
