## MEMORANDUM

TO: District Directors  
Environmental Health Managers  
Environmental Health Supervisors  
Environmental Health Specialists

FROM: *Roger A. Cooley*  
Roger A. Cooley, Assistant Technical Services Chief  
Division of Onsite Sewage and Water Services

SUBJECT: ATU Approval Update

Attached is an updated list of ATU's which have received ANSI/NSF, Standard 40 Class I approval, and may be used where 30-30 effluent limits apply under the Alternative Discharging Sewage Treatment Regulations for Single Family Dwellings. Specifically, the Singlair models 900-750 and 900-1000 units have been added to the approved list.

Please note that any discharging treatment unit, including those placed on the Virginia List of Approved Aerobic Units, must meet all the requirements of the Alternative Discharging Sewage Treatment Regulations for Single Family Dwellings before an operation permit will be issued.

The attached list replaces GMP # 25 which is hereby rescinded.
