Re: TD-16

Dear Mr. Brown,

As requested, we have reviewed the referred grouting material product literature. It appears to meet section 12 VAC 5-630-410 C. of the *Private Well Regulations*. We are approving it for use in Virginia as a grouting material with the understanding that it will be used according to your recommended procedures. We will add this to our list of approved grouting materials as described in (guidance, memorandum, policy) GMP #62 and #98.

If you have any questions, please call me at (804) 371-0780.

Sincerely,

Duke Price  
Onsite Program Manager
