Dear Virginia Education Coordinator/ALS Coordinator;

The Virginia Office of EMS Division of Educational Development in consultation with the National Registry of EMT's has developed the 'New' Recertification requirements effective July 2016. As outlined by the National Registry, the new approach to recertification allows a platform for evidence based medicine research for professionals and allows state and local agencies the freedom to dictate a portion of the national recertification requirements and provides a foundation for the EMS professional to embrace life-long learning through self assessment.

The new area numbers are developed based on the areas of education: Airway, Respiration and Ventilation, Cardiology & Resuscitation, Trauma, Medical and EMS Operations for the entire spectrum of EMS. This allows for a more broad approach to the awarding of CE and allows for the flexibility of changes as National Registry addresses changes to the NCCP every 5 years.

The Training Officer Guide and Education Guidelines provided by the National Registry of EMT's links are provided below:

Training Officer Guide: <https://www.nremt.org/nremt/downloads/2015NCCPTOGuide.pdf?20050914094153>

EMT Education Guidelines: <https://www.nremt.org/nremt/downloads/NCCREMTEducationGuidelines.pdf>

Paramedic Education Guidelines: <https://www.nremt.org/nremt/downloads/NCCRParamedicEducationGuidelines.pdf>

When planning your recertification program, you are expected to meet the objectives defined in the Training Officer Guide for the NCCP portion of your course. The Local PDA should contain information that is regional, local or individual for your organization in consultation with your Operational Medical Director.

A Certificate of Completion will be generated and placed in each provider's portal once they have met their CE requirements as a indication of having completed the recertification requirements that meet the expectations of the NCCP recertification. More information will be forthcoming on how to complete the National Registry recertification application in the future.
