**Reorder #DMC1 (assortment, approx. 1 sq. ft.)
"DermaCrisp"™, SIMULATED CHARRED SKIN**

Dampen product so it will wrinkle up, let dry. Carefully remove from protective sheet. Cut or tear to desired shape and size. Cleanse subject skin with alcohol. Apply a bead of melted effects gel to the back of a palette knife. Spread a generous coat onto subject's skin. Immediately apply DermaCrisp over effects gel. Press firmly to remove air bubble. Allow to set up for 2 - 3 mins. Powder exposed effects gel and brush away all excess. If desired, dab gently with a damp cotton swab to restore shine. Add makeup to achieve desired effect.
