

EMS TRAINING PROGRAM ADMINISTRATION MANUAL

Policy Number: T-228	Page: 1	of: 1
Title: Non-EMS Agency Practice		
Regulatory Authority: 12VAC5-31-1040		
Date of Issue: December 1, 2002	Effective Date: July 1, 2012	

The state EMS regulations do not address the use of state certified EMS providers to practice in non-EMS agency based medical settings (e.g. hospitals, clinics, home care services, etc.). Any medical practice in these settings is limited to those procedures specifically permitted under the licensure authority of the supervising physician. The field practice of medical procedures by certified EMS providers who are not affiliated with a Virginia Licensed EMS Agency are limited to the provision of basic "first-aid" techniques. The Office considers non-affiliated certificate holders to be in INACTIVE status.
