Project Overview

A Day in the Life of a Local Health Department: Observing and creating a presentation that can be used as a resource to demonstrate all the services and functions of the LHD.

Lessons Learned

- Promoting health and wellbeing
- Providing resources of various health and environmental safety topics to the community
- The intersectionality of working together and other agencies
- The importance of what goes on in the background of the health department
- There is a range of services and communities to reach in CHD

Observations

Clinical Services, Environmental Health, Epidemiology, Population Health, Internal Departments, WIC
