

HIV Continuum of Care in Virginia, 2019

Prepared by: Division of Disease Prevention
Virginia Department of Health
April 2020

Defining the HIV Continuum of Care in Virginia

What's considered a care marker?

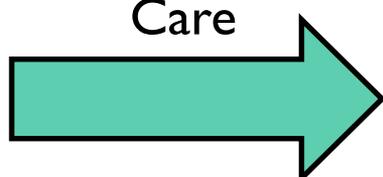

Linkage

Evidence of a care marker within 30 days of initial HIV diagnosis

Evidence of Care

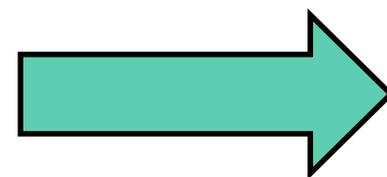

Evidence of at least one care marker in 12 months

Retention

2 or more care markers in 12 months at least 3 months apart

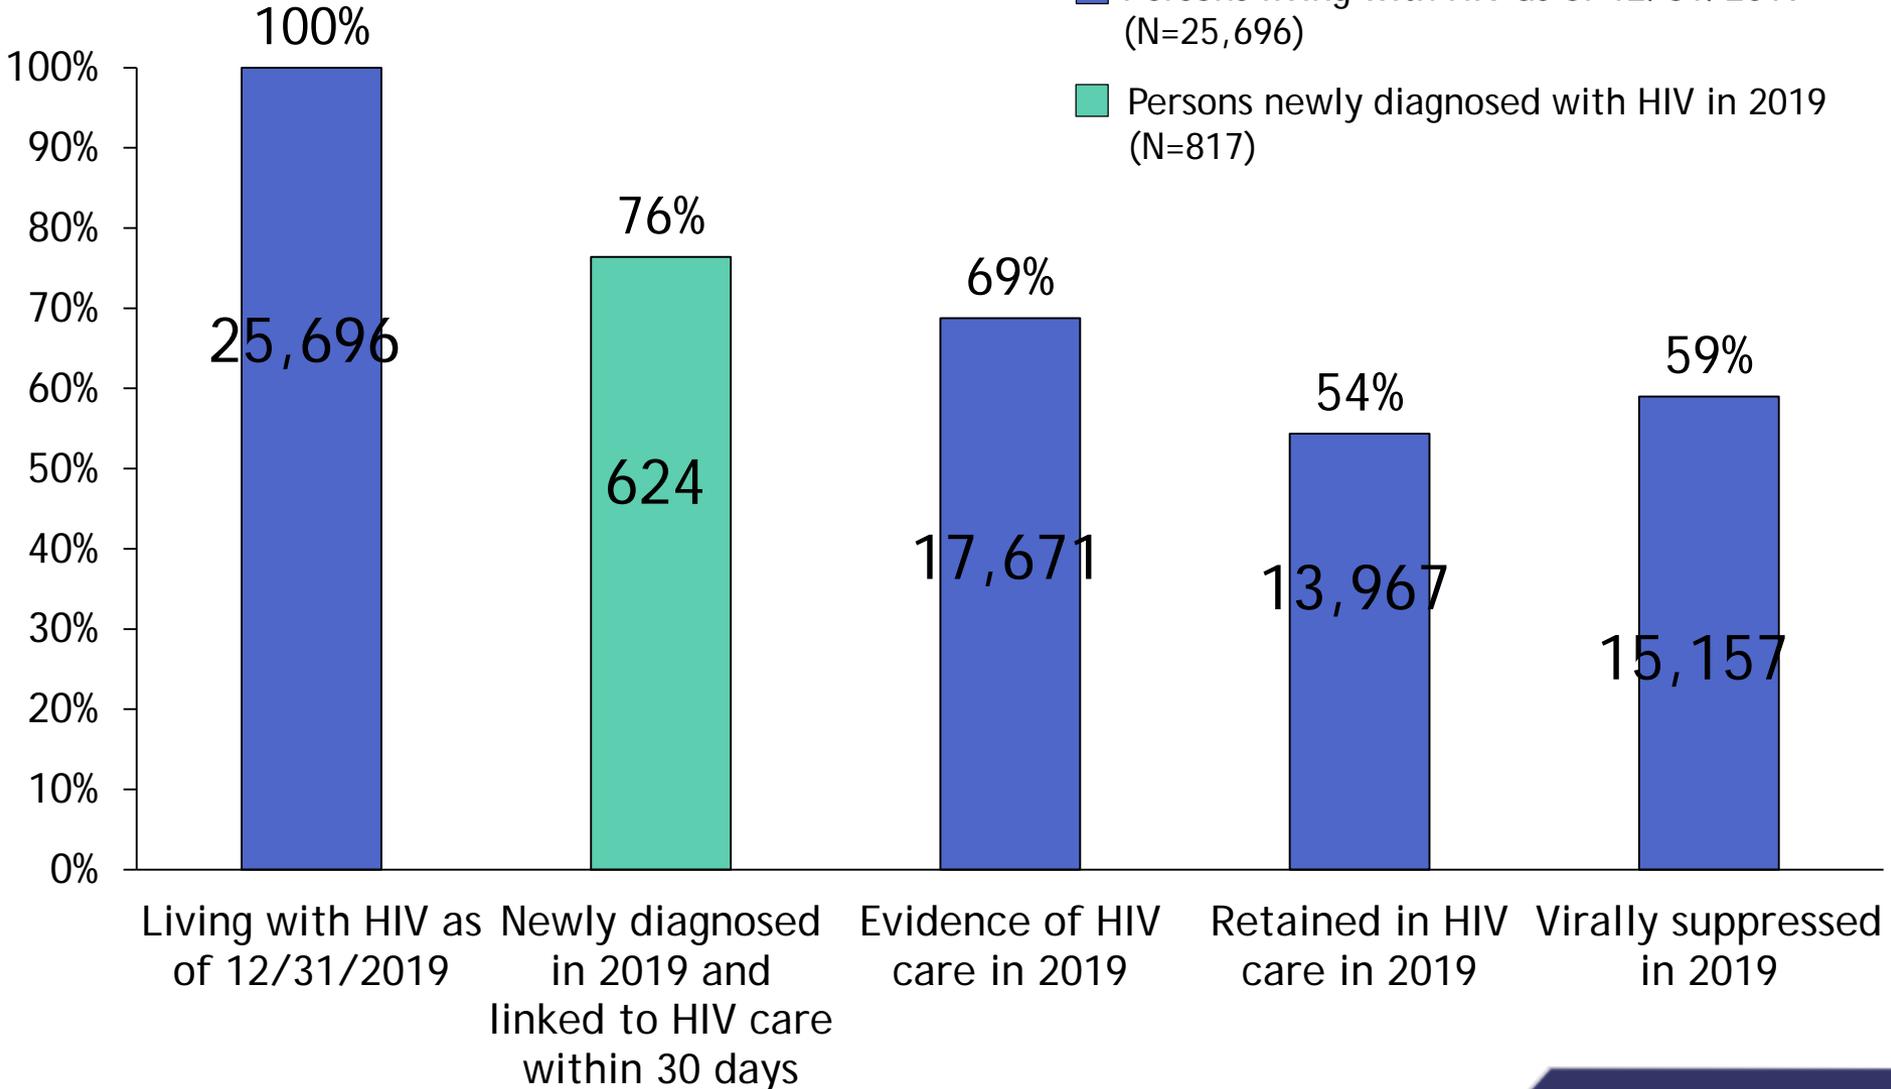

Viral Suppression

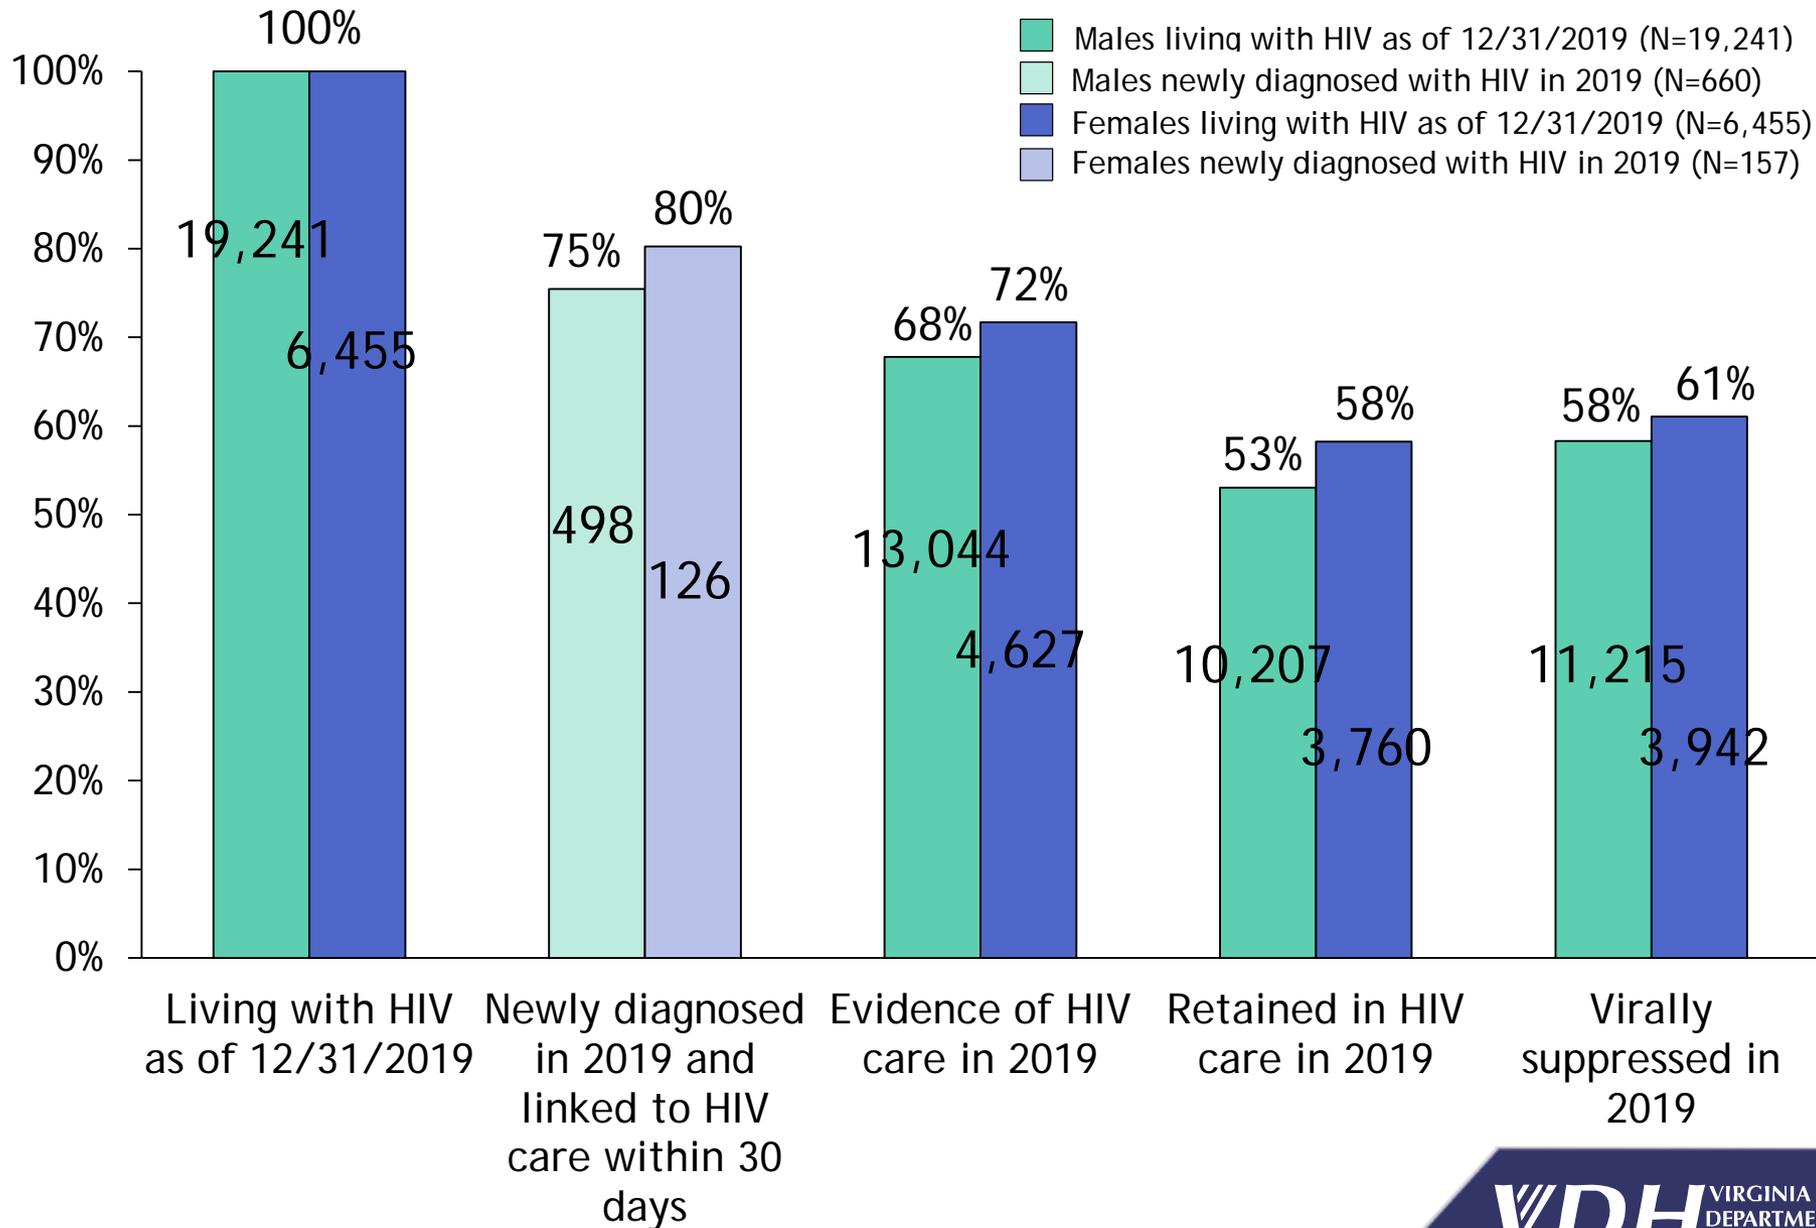

Last viral load <200 copies/mL in the time period being measured

HIV Continuum of Care in Virginia, 2019

- Persons living with HIV as of 12/31/2019 (N=25,696)
- Persons newly diagnosed with HIV in 2019 (N=817)

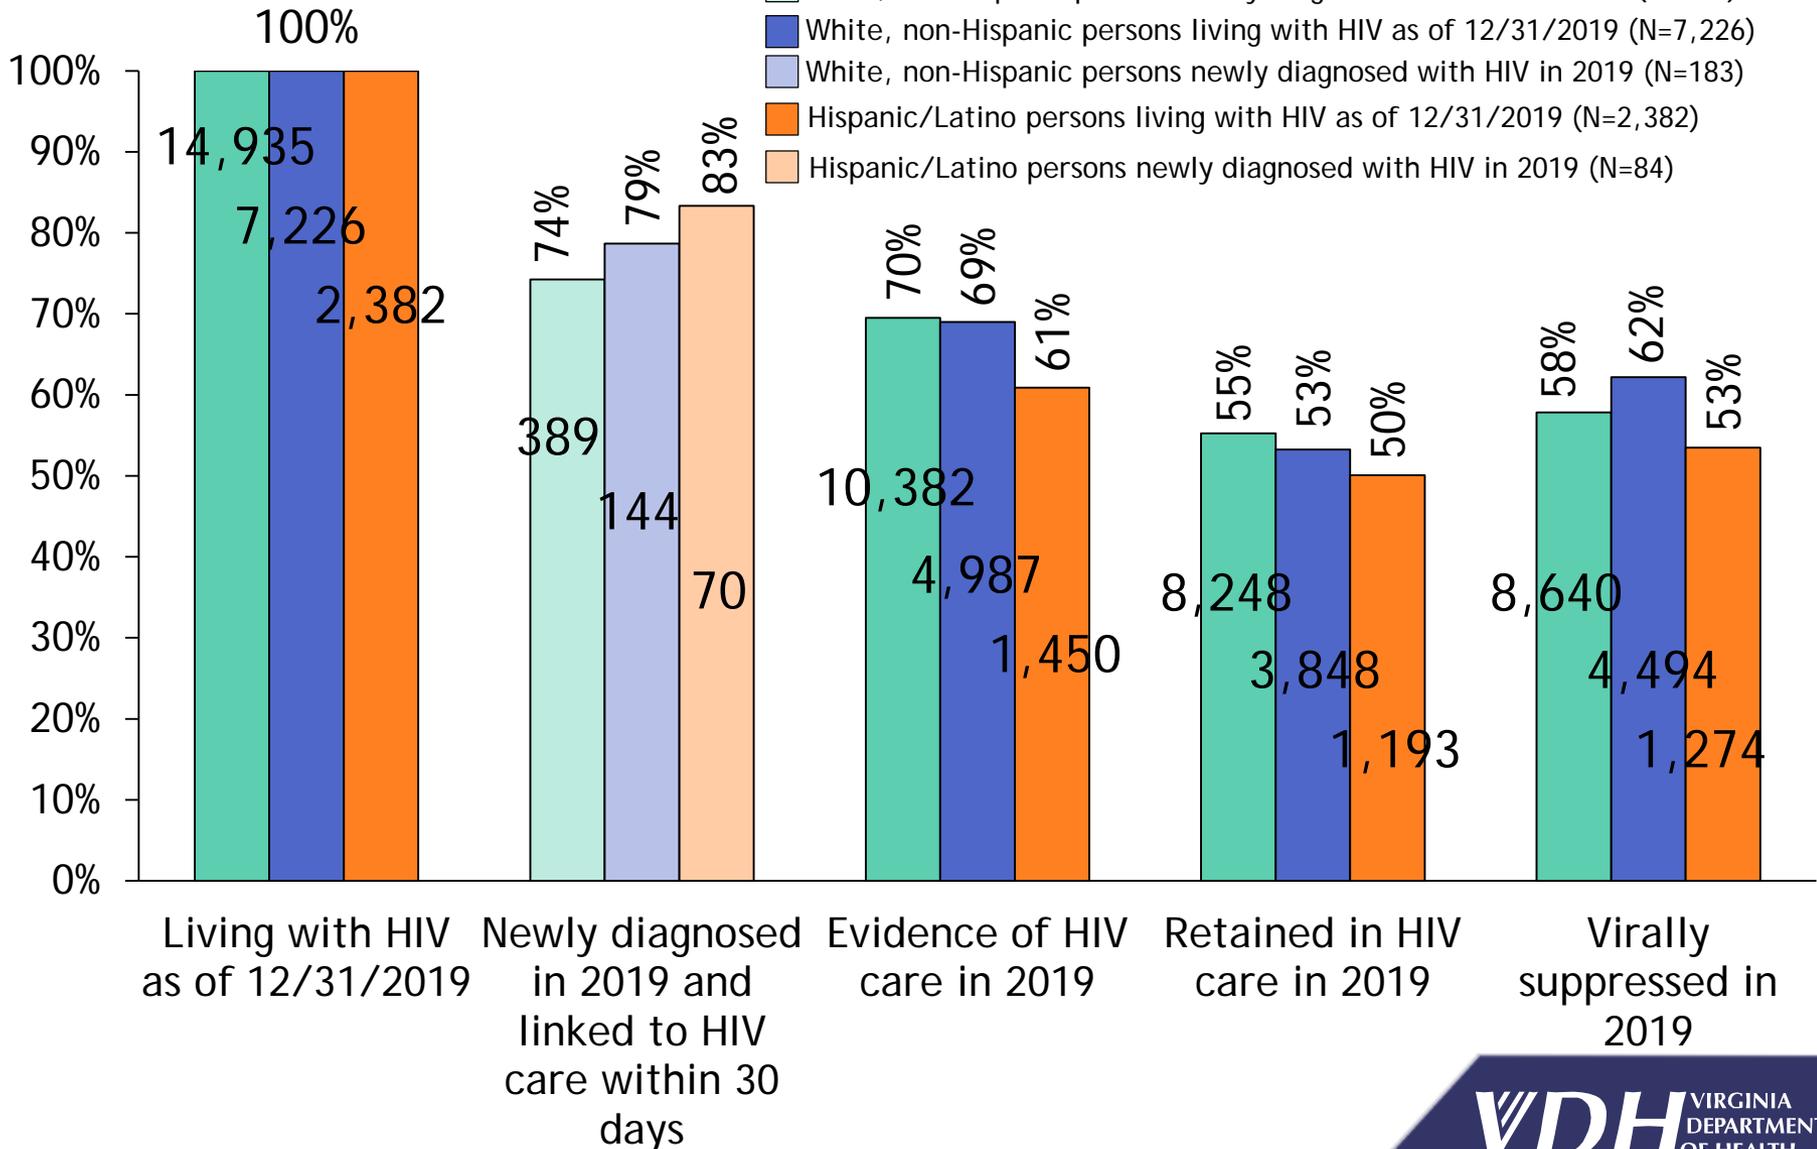

HIV Continuum of Care by Sex at Birth in Virginia, 2019

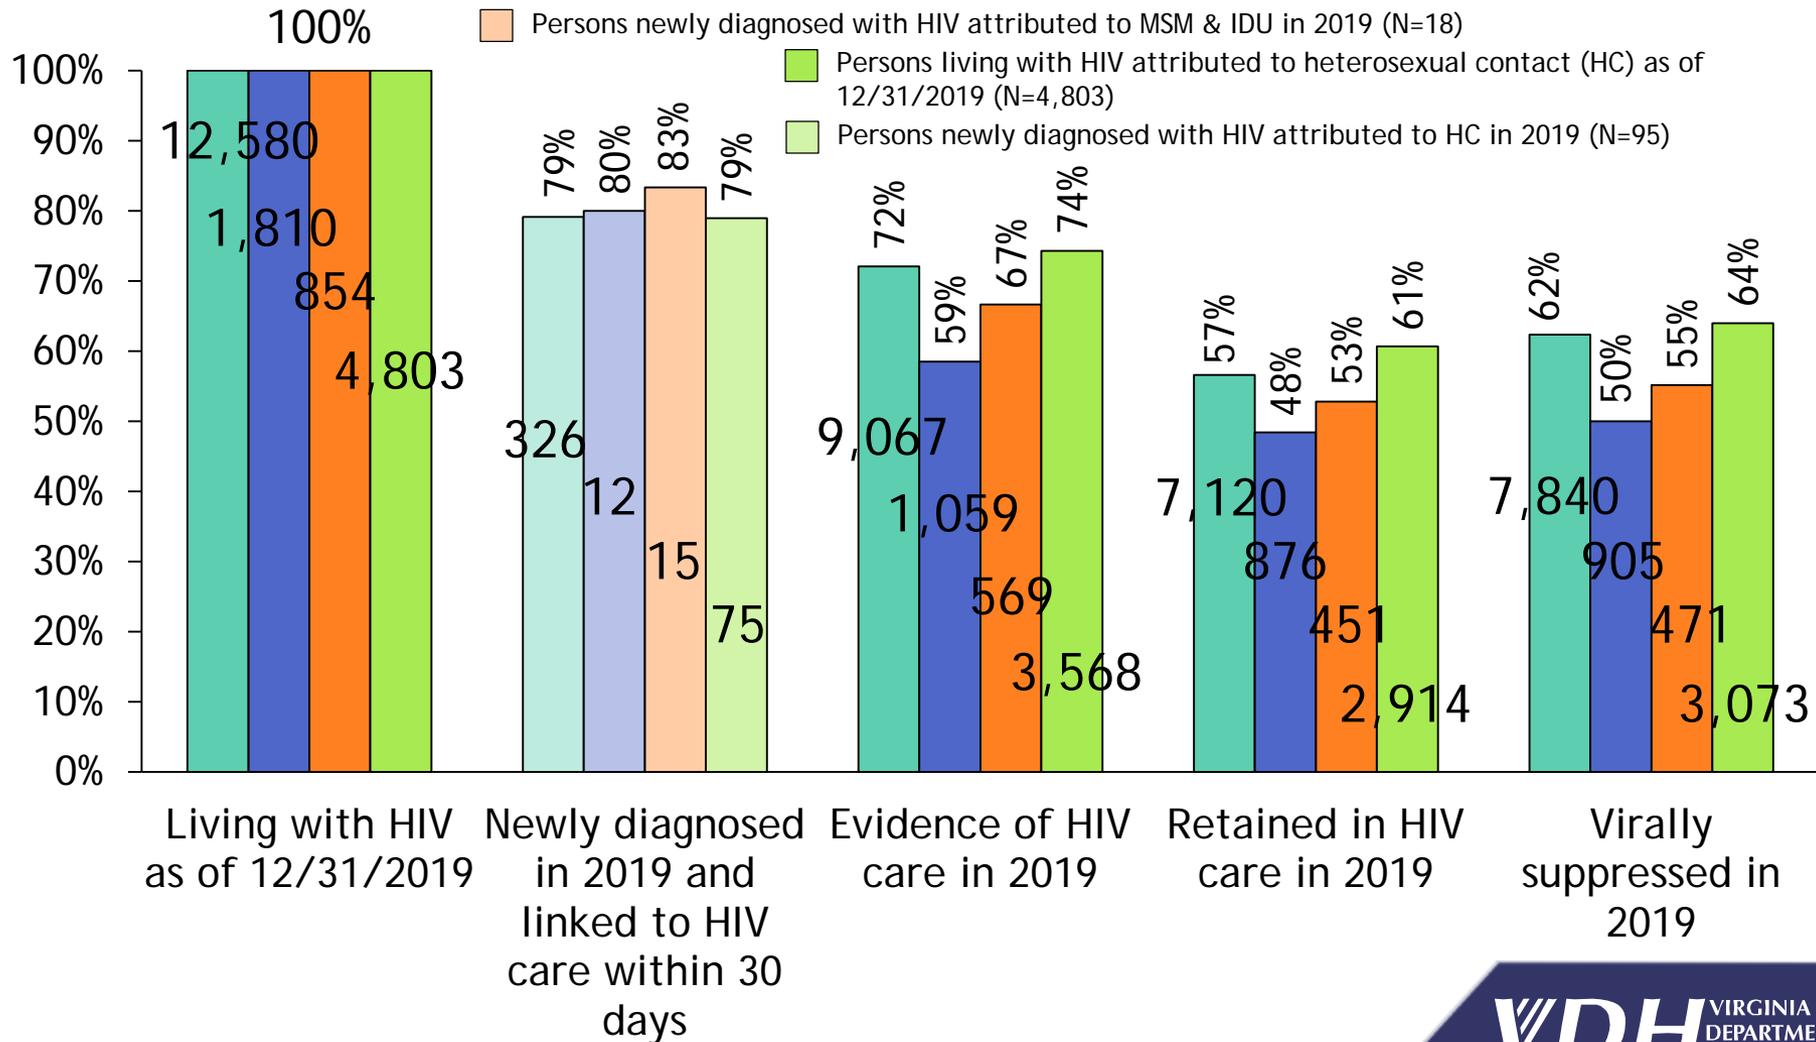

HIV Continuum of Care by Race/Ethnicity in Virginia, 2019

- Black, non-Hispanic persons living with HIV as of 12/31/2019 (N=14,935)
- Black, non-Hispanic persons newly diagnosed with HIV in 2019 (N=524)
