

# HIV Continuum of Care for CHARLII Clients

January 1, 2021- December 31, 2021

# National HIV Care Continuum

## Prevalence-based HIV Care Continuum, U.S. and 6 Dependent Areas, 2019

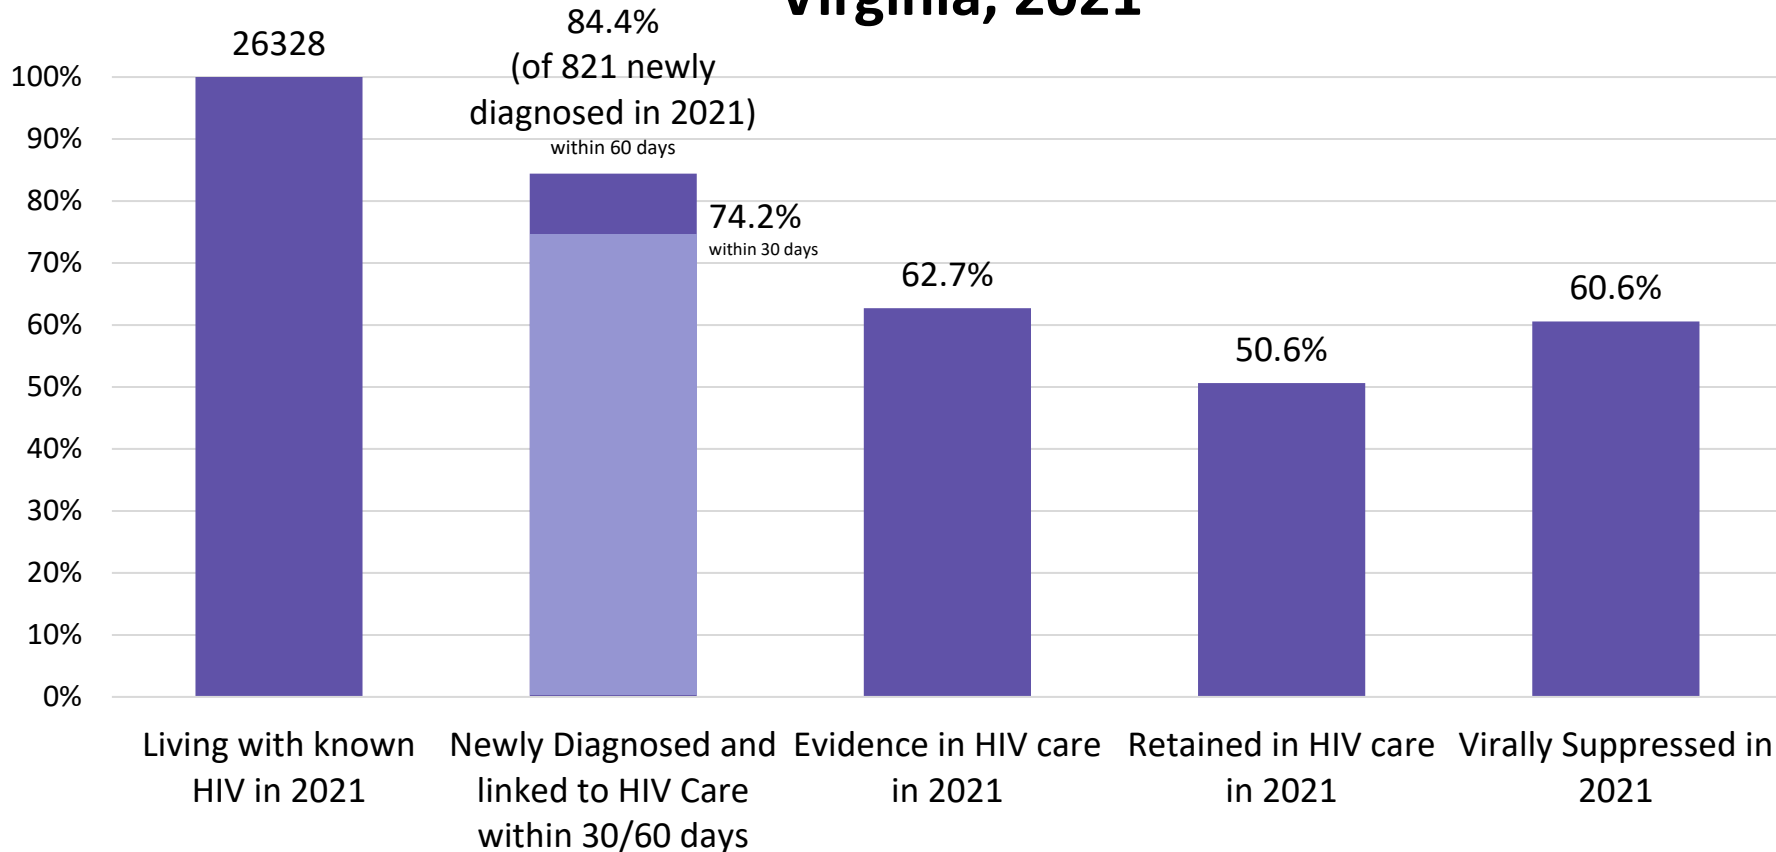

- diagnosis of HIV infection
- linkage to HIV medical care
- receipt of HIV medical care
- retention in medical care
- achievement and maintenance of viral suppression

## National HIV/AIDS Strategy Goals for the HIV Continuum of Care

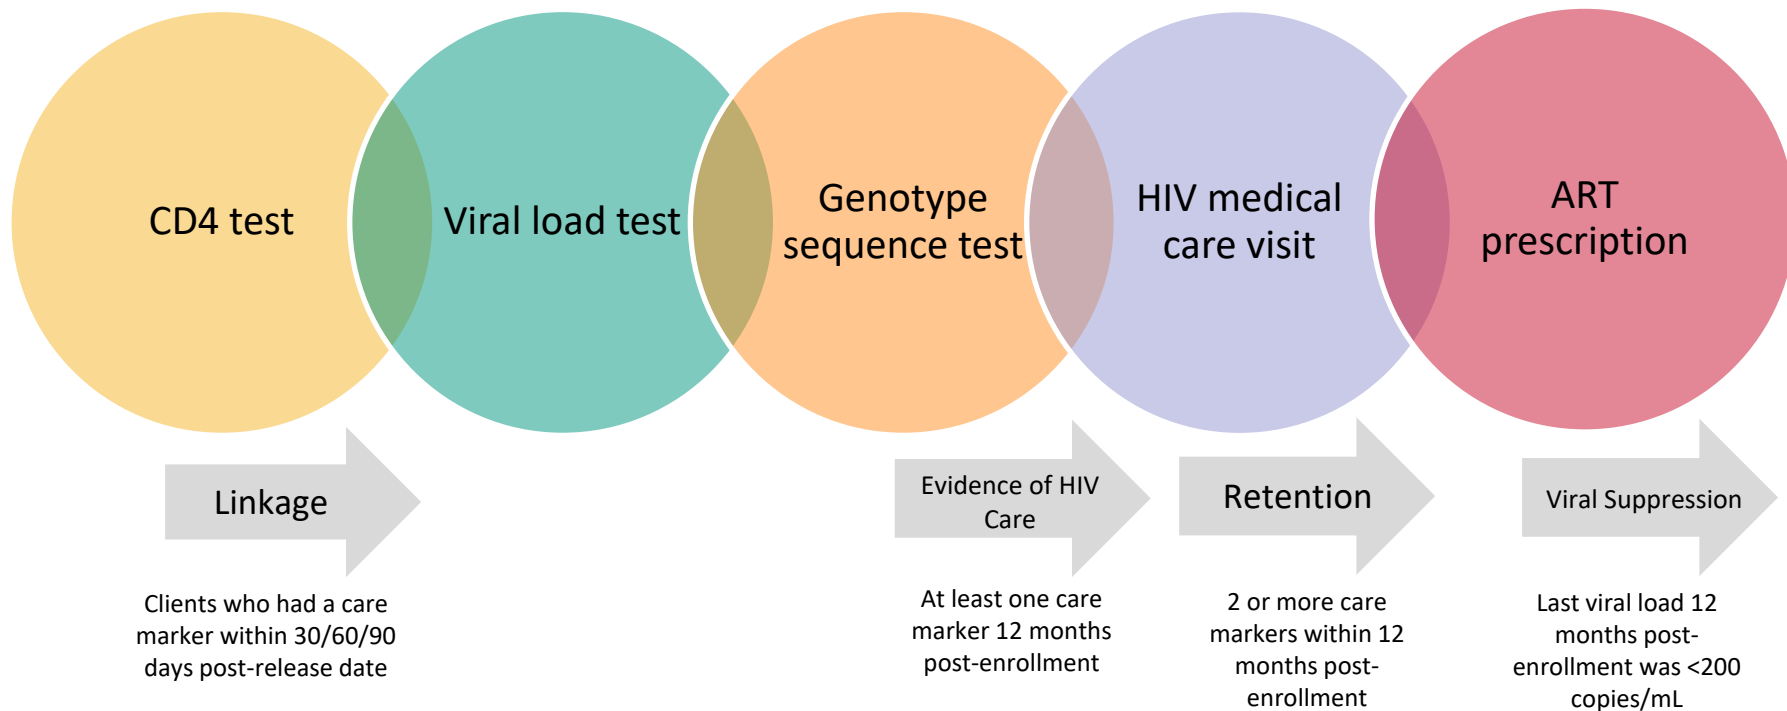

HIV Continuum of Care Measure	2025 Goal
Linkage to HIV care within 30 days	95% (from 77.8% in 2017)
Retention in care	<i>Objective: Increase retention in care and adherence to HIV treatment to achieve and maintain long-term viral suppression and provide integrative HIV services for HIV-associated comorbidities, coinfections, and complications, including STIs.</i>
Viral suppression	95% (from 63.1% in 2017)
