

Provider Benefits

FREE TO USE

VIIS is a Web-based application provided free of charge to health care providers in Virginia. The provider must have internet access and Adobe Reader in order to use the system.

TRAINING

VDH offers a variety of trainings to include hands-on, group, webinar and online training modules. Once registered, you will be contacted by a VIIS Trainer to schedule training.

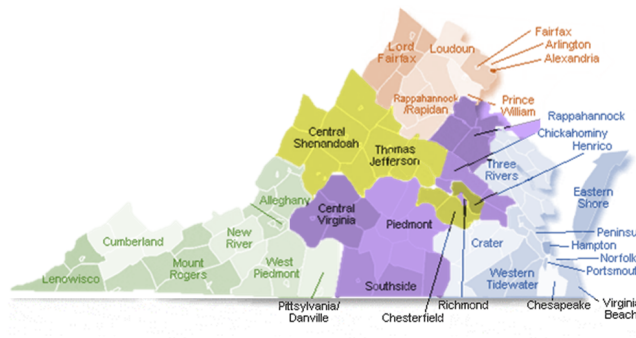

REGISTRATION

To register for VIIS, go to the Virginia Electronic Registration for Immunization Programs (VERIP)

Website at:

<https://apps.vdh.virginia.gov/verip/home.aspx>

Virginia Immunization Information System

HEALTHY VIRGINIANS
RELIABLE & SECURE IMMUNIZATION
DATA

What is the VA Immunization Information System?

Since 2006, the Virginia Department of Health's Division of Immunization (VDH/DOI) implemented a statewide Immunization registry for the public and private sectors known as the Virginia Immunization Information System (VIIS). Immunization registries are confidential, secure, computerized databases which contain vaccine information provided by participating providers to individuals of all ages. VIIS works with various organizations and has participation from private providers, hospitals, free clinics, health plans, pharmacies, and more. VIIS is updated daily with immunization data from vital records and local health departments.

Access to VIIS is beneficial to families, giving quick and easy access to immunization records.

- Combines all immunizations a child has received
- Immunization reminders
- Helps families stay on immunization schedule
- Prevents over/under vaccination
- Accurate records for daycare, summer camp, sports and school entry
- Eliminates need to maintain and provide new providers with complete immunization history.

Benefits for Pharmacy

- Consolidated immunization records
- Integrated ACIP tracking schedule
- Inventory management module
- Official Immunization record

Provider Benefits

| FREE | EFFECTIVE | SECURE |
| REMINDER RECALL |
| COST-EFFICIENT |

Data

- Consolidates records on a secure site from public and private sector
- Ability to do direct data input and exchange
- Inventory Management with accountability reports
- VFC reports

Patient Immunization Needs

- Reduces under/over immunization rates
- Increases vaccine coverage
- Validates immunization history
- Provides recommendation based on Advisory Committee on Immunization Practices (ACIP).
- Provides official immunization records acceptable as MCH-213 School Entrance substitute.
