School Requirements
The Code of Virginia requires children entering daycare, public and private schools to give proof of vaccination before enrolling in school. The vaccines should be given based on the schedule recommended by the CDC, American Academy of Pediatrics, and American Academy of Family Physicians. Please visit our website to learn more about school immunization requirements and exemptions: https://www.vdh.virginia.gov/immunization/requirements/

Combination Vaccines
Many vaccines are combined into one shot. This is proven to be safe and effective, helping lower the number of shots your child will get.

Herd Immunity
This protects your community from disease by immunizing as much of the community as possible. This helps protect babies, the elderly, and others who get sick easily!
VIRGINIA ADOLESCENT VACCINATION SCHEDULE
7 YEARS- 18 YEARS
Updated 8/2022

Vaccine Catch-Up & Dose Spacing*
If your child is missing any vaccines, be sure to ask your provider about the catch-up schedule so your child is fully protected. Doses of MMR and Varicella should be spaced 28 days apart, should complete by Kindergarten.

HPV Vaccine
The HPV vaccine is the only vaccine that helps to prevent cancer! In Virginia, it is required before going to 7th grade. For more information on HPV vaccine requirements and the HPV vaccine opt-out clause, please visit the following website: https://www.vdh.virginia.gov/content/uploads/sites/11/2021/03/HPV_Letter_Spring.pdf. Please be sure your child finishes the HPV series vaccine by age 13, for the most protection. If your child is 15 years or older at the time of the first shot of HPV, they will need 3 doses for full protection.

Serogroup B Meningococcal Vaccine (MenB)**
Older teens and young adults (ages 16-23) can receive the MenB vaccine. Talk with your child’s health care provider to learn if the MenB vaccine is right for your teen.

School Requirements
The Code of Virginia requires children entering daycare, public and private schools to give proof of vaccination before enrolling in school. The vaccines should be given based on the schedule recommended by the CDC, American Academy of Pediatrics, and American Academy of Family Physicians.
