

Virginia Student Immunization Survey (SIS) Step-by-Step Instructions – 2026/2027 - Kindergarten

Before You Begin

- Collect all student immunization records for the grade(s) in which you are completing for this survey.

Step 1 – Kindergarten (or 1st Grade if no Kindergarten students are enrolled)

- Visit the REDCap link: [VDH - Student Immunization Survey](#)
- Please read the instructions carefully.
- For technical issues, please contact: studentimmunizationsurvey@vdh.virginia.gov

Step 2

Kindergarten: Adequately Immunized

- **Number of students Adequately Immunized**
- Insert the total number of enrolled Kindergarten students who have received the following vaccines with the appropriate valid doses, as of the 1st day of school:
- 4 doses of DTaP one on or after the 4th birthday
- 3 doses of Polio on or after the 4th birthday
- 2 doses of MMR
- 2 doses of Varicella
- 3 doses of Hepatitis B
- 2 doses of Hepatitis A

Kindergarten: McKinney-Vento Students

- **Number of kindergarten students who are McKinney-Vento, who do not meet the criteria for 'adequately immunized', exemptions, or conditional enrollment as of the first day of school.**
- If a student has BOTH the required number of doses and McKinney-Vento on file, then ONLY count them as adequately immunized.

Kindergarten: Medical Exemptions

- Number of students with Medical Exemptions
- Insert the total number of kindergarten students enrolled in Kindergarten with a Medical Exemption
- If a student has BOTH the required number of doses and a medical exemption on file, then ONLY count them as adequately immunized and disregard the exemption.

Kindergarten: Religious Exemptions

- **Number of students with Religious Exemptions**
- Insert the total number of kindergarten students enrolled with a Religious Exemption
- If a student has BOTH the required number of doses and a religious exemption on file, then ONLY count them as adequately immunized and disregard the exemption.

Kindergarten: Conditionally Enrolled

- **Number of students that are Conditionally Enrolled**
- Insert total number of kindergarten students enrolled that are 'Conditionally Enrolled' as of the 1st day of school
- Conditionally enrolled students must have proof of having received at least one (1) dose of each of the required immunizations and have a schedule on file to receive the remainder of the required doses within 90 DAYS (or in the case of Hepatitis A and Hepatitis B, 180 DAYS)

• **Students following a catch-up schedule with a 6-month interval for a vaccine other than Hepatitis B may be listed as conditionally enrolled for up to 90 days, as long as the student has received at least 1 dose of all required vaccines. After 90 days, the student must have a valid medical exemption on file to remain enrolled.
Kindergarten: Enrolled
• Number of Students Enrolled • The total number of students enrolled in kindergarten at your school should automatically populate based on the data entered in previous questions. • This total should include all enrolled kindergarten students, including those who are: ○ Adequately immunized ○ Enrolled with a religious or medical exemption ○ Conditionally enrolled ○ McKinney-Vento students
Kindergarten: Exclusion
• Number of students excluded from school due to not meeting the criteria for adequately immunization, exemptions, or conditional enrollment. • Insert number of kindergarten students excluded from school due to not meeting the criteria for adequately immunized, exemptions, or conditional enrollment on file as of the 1st day of school. • Excluded students will not be included in the student enrolled number.
Kindergarten: Single Antigen
• Number with 2 doses of MMR • The total number of students with 2 appropriately spaced doses of MMR vaccine as of the 1st day of school.
• Number with 4 doses of DTaP • The total number of students with 4 appropriately spaced doses of DTaP vaccine as of the 1st day of school.
• Number with 3 doses of Polio • The total number of students with 3 appropriately spaced doses of Polio vaccine as of the 1st day of school.
• Number with 2 doses of Varicella • The total number of students with 2 appropriately spaced doses of Varicella vaccine as of the 1st day of school.
• Number with 3 doses of HepB • The total number of students with 3 appropriately spaced doses of HepB vaccine as of the 1st day of school.
• Number with 2 doses of HepA • The total number of students with 2 appropriately spaced doses of HepA vaccine as of the 1st day of school.

Virginia Student Immunization Survey (SIS) Step-by-Step Instructions – 2026/2027 – 7th grade

Collect all student immunization records for the grade(s) in which you are completing for this survey.
Step 1 – 7th grade
- Visit the REDCap link: VDH - Student Immunization Survey - Please read the instructions carefully. - For technical issues, please contact: studentimmunizationsurvey@vdh.virginia.gov
Step 2 – 7th grade
7th grade: Part I
Number of students Adequately Immunized** - Insert the total number of enrolled 7th-grade students who have received the following vaccines with the number of doses spaced appropriately, as of the 1st day of school: 4 doses of DTaP one on or after the 4th birthday 3 doses of Polio on or after the 4th birthday 2 doses of MMR 2 doses of Varicella *UTD doses of Hepatitis B 1 dose of Tdap 1 dose of MenACWY DO NOT include the HPV vaccine in your Adequately Immunized total.
7th grade: McKinney-Vento Students
Number of 7th grade students who are McKinney-Vento, who do not meet the criteria for 'adequately immunized', exemptions, or conditional enrollment as of the first day of school. - If a student has BOTH the required number of doses and McKinney-Vento on file, then ONLY count them as adequately immunized.
7th grade: Medical Exemptions
Number with Medical Exemptions - Insert the total number of 7th grade students enrolled with a Medical Exemption - If a student has BOTH the required number of doses and a medical exemption on file, then ONLY count them as adequately immunized and disregard the exemption.
7th grade: Religious Exemptions
Number of students with Religious Exemptions - Insert the total number of 7th grade students enrolled with a Religious Exemption - If a student has BOTH the required number of doses and a religious exemption on file, then ONLY count them as adequately immunized and disregard the exemption.
7th grade: Conditionally Enrolled

• Number of students that are Conditionally Enrolled • Insert total number of 7th grade students enrolled that are 'Conditionally Enrolled' as of the 1st day of school. • Conditionally enrolled students must have proof of having received at least one (1) dose of each of the required immunizations and have a schedule on file to receive the remainder of the required doses within 90 DAYS (or in the case of Hepatitis A and Hepatitis B, 180 DAYS) • **Students following a catch-up schedule with a 6-month interval for a vaccine other than Hepatitis B may be listed as conditionally enrolled for up to 90 days, as long as the student has received at least 1 dose of all required vaccines. After 90 days, the student must have a valid medical exemption on file to remain enrolled.
7th grade: Enrolled
• Number of Students Enrolled • The total number of students enrolled in 7th grade at your school should automatically populate based on the data entered in previous questions. • This total should include all enrolled 7th grade students, including those who are: ○ Adequately immunized ○ Enrolled with a religious or medical exemption ○ Conditionally enrolled ○ McKinney-Vento students
7th grade: Excluded
• Number of students excluded from school due to not meeting the criteria for adequately immunization, exemptions, or conditional enrollment. • Insert number of 7th grade students excluded from school due to not meeting the criteria for adequately immunized, exemptions, or conditional enrollment on file as of the 1st day of school • Excluded students will not be included in the student enrolled number.
7th grade: Tdap
• Number with one dose of Tdap vaccine • Insert total number of 7th-grade students enrolled that have received one dose of Tdap vaccine as of 1st day of school
7th grade: MenACWY
• Number with one dose of MenACWY vaccine • Insert total number of 7th-grade students enrolled with one dose of MenACWY vaccine as of 1st day of school
7th grade: HPV
• Number of Boys Enrolled • Insert total number of 7th grade Boys enrolled as of the 1st day of school, this number should not be greater than the total number of students enrolled in 7th grade
7th grade
• Number of Boys with at least one dose of HPV vaccine • Insert total number of 7th grade Boys enrolled with atleast one dose of HPV vaccine, as of the 1st day of school.
7th grade
• Number of Girls Enrolled • Insert total number of 7th grade Girls enrolled as of the 1st day of school, this number should not be greater than the total number of students enrolled in 7th grade
7th grade
• Number of Girls with at least one dose of HPV vaccine • Insert total number of 7th grade Girls enrolled with atleast one dose of HPV vaccine, as of the 1st day of school.

7th grade
• Number of 7th grade students with unknown birth sex enrolled as of the 1st day of school. • Insert total number of 7th grade students with unknown birth sex enrolled as of the 1st day of school.
7th grade
• Number of 7th-grade students with unknown birth sex with at least one dose of the HPV vaccine • Insert the total number of 7th grade students with unknown birth sex with at least one dose of HPV vaccine as of the 1st day of school
7th grade
• Please provide the number of parents or guardians who have confirmed that they are opting their child out of the HPV vaccine. • For purposes of this question, a parent or guardian is considered to have "confirmed" their child is opted out when they have: *Submitted a written or electronic document indicating they are deciding to opt out of the HPV vaccine *Verbally communicated to school staff that they do not want their child to receive the HPV vaccine *Responded to a school outreach request and explicitly stated that they are declining the HPV vaccine • If this information is not available, please indicate 0.

Virginia Student Immunization Survey (SIS) Step-by-Step Instructions – 2026/2027 –12th grade

Collect all student immunization records for the grade(s) in which you are completing for this survey.
Step 1 – 12th grade
- Visit the REDCap link: VDH - Student Immunization Survey - Please read the instructions carefully. - For technical issues, please contact: studentimmunizationsurvey@vdh.virginia.gov
Step 2 – 12th grade
12th grade: Part I
Number of students Adequately Immunized** - Insert the total number of enrolled 12th-grade students with the following vaccines, as of the 1st day of school: - DTaP - 4 doses one on or after the 4th birthday. Polio - 3 doses one on or after the 4th birthday (4th dose is not necessary if the third dose was administered at 4 years of age or older and at least 6 months from the previous dose) MMR - 2 doses Varicella - 2 doses - Hepatitis B - 3 doses(or 2-dose schedule ONLY for adolescents 11-15 years of age AND ONLY when the Merck Brand (RECOMBIVAX HB) Adult Formulation Hepatitis B Vaccine is used). Tdap - 1 dose MenACWY - 1 dose **HPV should not be included in the Adequately Immunized total
12th grade: McKinney-Vento Students
Number of 12th grade students who are McKinney-Vento, who do not meet the criteria for 'adequately immunized', exemptions, or conditional enrollment as of the first day of school. - If a student has BOTH the required number of doses and McKinney-Vento on file, then ONLY count them as adequately immunized.
12th grade: Medical Exemptions
Number with Medical Exemptions - Insert the total number of 12th-grade students enrolled with a Medical Exemption - If a student has BOTH the required number of doses and a medical exemption on file, then ONLY count them as adequately immunized and disregard the exemption.
12th grade: Religious Exemptions
Number of students with Religious Exemptions - Insert the total number of 12th grade students enrolled with a Religious Exemption - If a student has BOTH the required number of doses and a religious exemption on file, then ONLY count them as adequately immunized and disregard the exemption.
12th grade: Conditionally Enrolled

• Number of 12th grade students with conditional enrollment status, as of the first day of school. • Insert the total number of 12th-grade students enrolled that are 'Conditionally Enrolled' as of the 1st day of school. • Conditionally enrolled students must have proof of having received at least one (1) dose of each of the required immunizations and have a schedule on file to receive the remainder of the required doses within 90 DAYS (or in the case of Hepatitis A and Hepatitis B, 180 DAYS). • **Students following a catch-up schedule with a 6-month interval for a vaccine other than Hepatitis B may be listed as conditionally enrolled for up to 90 days, as long as the student has received at least 1 dose of all required vaccines. After 90 days, the student must have a valid medical exemption on file to remain enrolled.
12th grade: Enrolled
• Number of Students Enrolled • The total number of students enrolled in 12th graders at your school should automatically populate based on the data entered in previous questions. • This total should include all enrolled kindergarten students, including those who are: ○ Adequately immunized ○ Enrolled with a religious or medical exemption ○ Conditionally enrolled ○ McKinney-Vento students
12th grade: Exclusion
• Number of students excluded from school due to not meeting the criteria for adequately immunization, exemptions, or conditional enrollment. • Insert the number of 12th grade students excluded from school due to not meeting the criteria for adequately immunized, exemptions, or conditional enrollment on file as of the 1st day of school. • Excluded students will not be included in the student enrolled number.
12th grade: MenACWY
• Number with atleast one dose of MenACWY vaccine • Insert the total number of 12th-grade students enrolled that have received atleast one dose of MenACWY vaccine after the age of 16 years, as of 1st day of school.
12th grade
• Number with two doses of MenACWY vaccine • Insert total number of 12th-grade students enrolled that have received at least two doses of MenACWY vaccine with 1 dose being after the age of 16 years, as of 1st day of school.
12th grade: HPV
• Number of Boys Enrolled • Insert the total number of 12th-grade Boys enrolled as of the 1st day of school, this number should not be greater than the total number of students enrolled in 12th grade.
12th grade
• Number of Boys with one dose of HPV vaccine • Insert total number of 12th-grade Boys enrolled with only 1 dose of HPV vaccine as of the 1st day of school
12th grade
• Number of Boys with at least (2) appropriately spaced doses of HPV vaccine as of the first day of school. • Insert total number of 12th grade Boys enrolled with at least 2 doses of HPV vaccine as of the 1st day of school. • **Please note: Definition of appropriately spaced doses of HPV Vaccine: ○ 2- or 3-dose series depending on age at initial vaccination: ○ Age 9 -14 years at initial vaccination: 2-dose series at 0, 6-12 months (minimum interval: 5 months)

○ Age 15 years or older at initial vaccination: 3-dose series at 0, 1-2 months, 6 months (minimum intervals: dose 1 to dose 2 = 4 weeks; dose 2 to dose 3 = 12 weeks; dose 1 to dose 3 = 5 months)
12th grade
● Number of Girls Enrolled ● Insert the total number of 12th-grade Girls enrolled as of the 1st day of school, this number should not be greater than the total number of students enrolled in 12th grade.
12th grade
● Number of Girls with one dose of HPV vaccine ● Insert the total number of 12th grade Girls enrolled with only 1 dose of HPV vaccine as of the 1st day of school
12th grade
● Number of Girls with at least (2) appropriately spaced doses of HPV vaccine as of the first day of school. ● Insert total number of 12th grade Girls enrolled with at least 2 doses of HPV vaccine as of the 1st day of school. ● **Please note: Definition of appropriately spaced doses of HPV Vaccine: ○ 2- or 3-dose series depending on age at initial vaccination: ○ Age 9 -14 years at initial vaccination: 2-dose series at 0, 6-12 months (minimum interval: 5 months) ○ Age 15 years or older at initial vaccination: 3-dose series at 0, 1-2 months, 6 months (minimum intervals: dose 1 to dose 2 = 4 weeks; dose 2 to dose 3 = 12 weeks; dose 1 to dose 3 = 5 months)
12th grade
● Number of 12th grade students with unknown birth sex enrolled as of the 1st day of school. ● Insert the total number of 12th grade students with unknown birth sex enrolled as of the 1st day of school.
12th grade
● Number of 12th grade students with unknown birth sex with one dose of the HPV vaccine ● Insert the total number of 12th-grade students with unknown birth sex with only 1 dose of HPV vaccine as of the 1st day of school
12th grade
● Number of 12th grade students with unknown birth sex with at least (2) appropriately spaced doses of HPV vaccine as of the first day of school. ● Insert the total number of 12th grade students with unknown birth sex with at least 2 doses of HPV vaccine as of the 1st day of school ● **Please note: Definition of appropriately spaced doses of HPV Vaccine: ○ 2- or 3-dose series depending on age at initial vaccination: ○ Age 9 -14 years at initial vaccination: 2-dose series at 0, 6-12 months (minimum interval: 5 months) ○ Age 15 years or older at initial vaccination: 3-dose series at 0, 1-2 months, 6 months (minimum intervals: dose 1 to dose 2 = 4 weeks; dose 2 to dose 3 = 12 weeks; dose 1 to dose 3 = 5 months)

Key:

Hep B - If a child is 11-15 years of age at the time of FIRST vaccination, only two doses are needed if the adult dose of Recombivax HB is used.

HPV vaccination - ACIP requires a total of two or three doses depending on age of first dose.

**** HPV vaccine should not be included in the “Number of Students Adequately Immunized” total.**
