Discussion

Questions?
Reactions?

Which health topics do
you think should be
considered most
important to address?

Forces of Change Assessment

Forces are a broad all-encompassing category.

Includes

- **Trends- patterns over time** (e.g. migration in and out of a community or a growing disillusionment with government)
- **Factors- discrete elements** (e.g. a community's large ethnic population, an urban setting, or a jurisdiction's proximity to a major waterway)
- **Events- one-time occurrences** (e.g. a hospital closure, a natural disaster, or the passage of new legislation)

Types of forces

- social
- economic
- political
- technological
- environmental
- scientific
- legal
- ethical

Discussion: Forces of Change Assessment

What are some forces of change (trends, events, and factors) that affect our community?

What threats and opportunities are tied to these forces?

Types of forces: social, economic, political, technological, environmental, scientific, legal, ethical

Forces of Change Assessment, Continued

Further identifying forces

1. What has occurred recently that may affect our local public health system or community?
2. What may occur in the future?
3. Are there any trends occurring that will have an impact? Describe the trends.
4. What forces are occurring locally? Regionally? Nationally? Globally?
5. What characteristics of our jurisdiction or state may pose an opportunity or threat?
6. What may occur or has occurred that may pose a barrier to achieving the shared vision?

Next Steps

- Look out for follow-up email in next several days
 - Meeting notes
 - Meeting slides
 - **Doodle poll for January meeting**

- Happy Holidays!
