

DOES YOUR CHILD HAVE ASTHMA?

- The goal of the RVA Breathes program is to improve the daily experiences of children with asthma.
- Families work together with RVA Breathes program staff (Community Health Worker and Healthy Homes Specialist) on strategies to manage asthma and improve overall health. The program lasts up to four months.
- If you live in the City of Richmond and have a school-aged child or teen, this program might be a good fit for your family.
- Call the RVA Breathes team at **804-584-0266** or email [**rvabreathes@vdh.virginia.gov**](mailto:rvabreathes@vdh.virginia.gov).

RVA Breathes is a program of the Richmond City Health District, modeled after a program developed by Virginia Commonwealth University.
