

HOMEOWNER BENEFITS

We work with homeowners, tenants, and property management/owners to:

- Prevent or eliminate mold issues
- Save on heating/cooling, electrical and/or plumbing costs
- Reduce the risk of injuries from deteriorated structures (e.g. unsafe floors)
- Prevent or control pests
- Minimize or control odors, allergens, and generation of harmful products
- Reduce risk of falling
- Promote better air circulation and improve breathing
- Keep housekeeping simple and safe
- Reduce heating and cooling costs while maintaining comfort
- Solve current problems/reduce future problems
- Reduce home maintenance and improve health and safety

TENANT BENEFITS

Keeping your home dry may:

- Prevent mold growth
- Help breathing and asthma problems

Protecting your home from pests may:

- Prevent bites and spread of diseases
- Prevent food contamination.

Safety-proofing your home may:

- Keep children safe from poison
- Prevent unwanted pests

Having a clean & clutter-free home may:

- Prevent pests
- Reduce trip and fire hazards

Enhancing home energy efficiency may:

- Improve comfort & indoor air quality
- Reduce utility costs

Removing contaminants from a home may:

- Eliminate skin irritations
- Reduce allergens or chemical irritants

Developing home maintenance skills may:

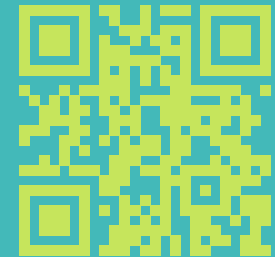

- Improve comfort and security at home
- Reduce stress and improve home life

Understanding landlord-tenant rights may:

- Improve relationship with and responsiveness of landlords
- Ensure continued occupancy & affordability

LEAD SAFE AND HEALTHY HOMES INITIATIVE

STRIVING TO MAKE
RICHMOND BETTER
WITH YOU!

WHAT IS A HEALTHY HOMES ASSESSMENT AND WHAT CAN IT DO FOR YOU?

A Healthy Home Assessment is a collaborative approach

that considers your well-being, your home's condition, and the potential hazards to your health. This simple assessment will empower you with sustainable solutions to make your home a healthier place to live.

We are here to help.

We take a non-intrusive approach by understanding your health and well-being, your privacy and rights, and the condition of your home to come up with people-centered, feasible, and affordable solutions.

We have a long history of success

in helping Richmond City residents gain more control over their living conditions, learn about their rights and responsibilities as occupants, and recognize hazards in the home.

Empowering residents.

When residents understand the connections between housing and health, they are empowered and become knowledgeable to prevent or reduce problems in the home, lessen the cost of utility bills, and improve their health and well-being.

WHAT IS THE PROCESS?
