

# COMMUNICABLE DISEASE REFERENCE CHART

PORTSMOUTH  
Health Department

*Charting a Course for Good Health*

Kids get sick a lot, and we know it is hard to remember what steps you have to take each time one of your children is sick. The QR code below brings you to the Virginia Department of Health Communicable Disease Reference Chart. This chart has the most common illnesses we see in children and provides recommendations on what to do with both the sick child and any close contacts.
