Foodservice Establishment Plan Review Application

\$40.00 Fee

This Food Establishment Plan Review packet is intended to help you through the plan review process and to assure that your establishment meets Commonwealth of Virginia Board of Health Food Regulations, 12 VAC 5-421. This document is a companion to the subsequent foodservice permit issue. A thorough review of plans helps to avoid future problems. By listing and locating equipment on floor plans and diagramming specifications for electrical, mechanical, and plumbing systems, potential problems can be spotted while still on paper and modifications made BEFORE costly purchases, installation and construction.

- https://www.vafire.com/
- https://law.lis.virginia.gov/admincode/title12/agency5/chapter421/

Plan Review Process:

- 1. Submit all REQUIRED DOCUMENTATION. Plan Review Application with review fee, Permit Application with fee, Menu, Site plans, Food Establishment plans with Equipment listed, Manufacturer's equipment specifications.
- 2. Upon receipt of all required documentation, an Environmental Health Inspector (EHS) will be assigned your plan review and will contact you. Initial plan review approval/denial will be provided within 30 days (incomplete applications will delay the plan review process).
- 3. Cut sheets, manufacture's specifications, and/or photos of the facility and all equipment must be supplied.
- 4. Approvals for onsite water supply and wastewater disposal systems must be supplied (if applicable).
- 5. Applicant is responsible for obtaining any required approvals from other agencies, such as zoning/planning, business license, fire marshal, building, city or county authorities.
- 6. If smoking is allowed in designated indoor area, please apply to local building official for approval of separate ventilation system for this area. See Virginia Clean Air Act for additional information on Restaurant Smoking.
- 7. All revisions must be submitted in writing.
- 8. Approved plans shall be kept onsite during construction.
- 9. Applicant makes an appointment with their local health department for pre-opening inspection minimum of 14 days prior to opening date.

NOTE: If smoking allowed in designated area, apply to local building official for approval of separate ventilation system for this area. Plans submitted to Health Department must show separate ventilation systems.

Approval of these plans and specifications by this Health Department does not indicate compliance with any other code, law or regulation that may be required--federal, state, or local. It further does not constitute endorsement or acceptance of the completed establishment (structure or equipment). A preopening inspection of the establishment with equipment in place & operational will be necessary to determine if it complies with the local and state laws governing food service establishments.

Inc	clude the following documents:
	Certified Food Protection Manager credential(s)
	Proposed Menu to include: ☐ Seasonal items ☐ Off-site ☐ Sample catering menus Manufacturer Specification sheets (cut sheets) for each piece of equipment shown on the plan including: ☐ Hot Water Heater Specification (or clear photo of date plate) ☐ Mechanical dishwashers ☐ Dimensions of 3 compartment sink (LxWxD individual basins)
	Site plan showing: □ Location of the business within the building □ Location of building on site including: □ Alleys □ Streets □ Parking Area □ Location of any outside equipment such as: □ Dumpsters □ Refrigeration Units □ Well □ Septic system - if applicable
	Plan drawn to scale of food establishment interior showing: □ Location of equipment □ Location of the plumbing in the food preparation and storage areas
	List of all <u>inside</u> equipment
pla cla pro	CONTENTS AND FORMAT OF PLANS AND SPECIFICATIONS- e Health Department will use the checklist and information you provide to facilitate review of your ns. If you do not provide the information requested below, we may need to contact you for rification. Please take the time to provide as much information as possible to help prevent delays in ocessing your plans. Provide plans that are a minimum of 11×14 inches in size including the layout of the floor plan turately drawn to a minimum scale of $1/8$ or $1/4$ inch = 1 foot.
2. 1	include:
equ	☐ Proposed menu ☐ Seating capacity ☐ Projected daily meal volume for operations Show the location and when requested, elevated drawings of all food equipment. Clearly label each piece of tipment on the plan with its common name. Submit drawings of self-service hot and cold holding units with the eze guards.
	Designate clearly on the plan equipment for adequate rapid cooling, including ice baths and refrigeration, and hot-holding potentially hazardous foods.
	Label and locate separate food preparation sinks when the menu dictates to preclude contamination and ss-contamination of raw and ready-to-eat foods.
	Clearly designate adequate handwashing sinks for each toilet fixture and in the immediate area of food paration, service and dishwashing areas.

7. Provide the following on the floor plan: \square Room size \square Aisle space \square Space between equipment

FACILITY INFORMATION

Water Supply Attach copy of written approval and/or permit. Type of water supply: □ public □ private If private, has source been approved? □ Yes □ No □ Pending Ice is made: □ On premises □ Purchased commercially If made on premise, are specifications for the ice machine provided?

Yes \sqcap No Describe provision for ice scoop storage: Provide location of icemaker or bagging operation: Type of hot water heater/generator (make/model):_____ What is the capacity of the hot water generator (gph)?:_____ Does the facility have a water treatment device? \square Yes \square No **If yes**, how will the device be inspected & serviced? How will backflow prevention devices be inspected & serviced?_____ **Sewage Disposal** Is building connected to a municipal sewer? □ Yes □ No **If no**, is the private disposal system approved? □ Yes (Attach copy of written approval and/or permit), □ No □ Pending Are grease traps or monitoring manholes provided? □ Yes \square No If so, where? **Handwashing/Toilet Facilities** Are handwashing sink(s) available in each food prep, wait station, bar, and ware washing area? □ Yes □ No Do all handwashing sinks, including those in the restrooms, have a mixing valve or combination faucet? □ Yes \square No Do self-closing metering (automatic) faucets provide a flow of water for at least 15 seconds without the need to reactivate the faucet? □ Yes \sqcap No Is hand cleanser available at all handwashing sinks? □ Yes \sqcap No Are hand drying facilities (paper towels, air blowers, etc.) available at all handwashing sinks? \Box Yes \Box No Is hot and cold running water under pressure available at each handwashing sink? □ Yes \square No Are covered waste receptacles available in each restroom? □ Yes \square No Are all toilet room doors self-closing? \sqcap Yes \sqcap No Are all toilet rooms equipped with adequate ventilation? \square Yes \sqcap No Are handwashing signs posted at all hand sinks used by employees? □ Yes \sqcap No **Cleaning and Sanitizing** Will sinks or a dishwasher be used for ware washing? □ Dishwasher □ Three-compartment sink Dishwasher: ☐ Type of sanitization used:

☐ Hot water (temp. provided)

☐ Booster heater _____

☐ Chemical type
\square Is ventilation provided? \square Yes \square No
\Box Do all dish machines have templates with operating instructions? \Box Yes \Box No
☐ Do all dish machines have temperature/pressure gauges, as required? ☐ Yes ☐ No
\square Is there a pre-wash sink? \square Yes \square No
Three Compartment Sink:
Does the largest pot and pan fit into each compartment of the pot sink? If no, what is the procedure for manual cleaning and sanitizing?
Does the pot sink contain drain boards on both ends? □ Yes □ No
What type of sanitizer is used? □ Chlorine □ Iodine □ Quaternary ammonium
Hot Water Other
Concentration of sanitizer:
Are test papers and/or kits available for checking sanitizer concentration? □Yes □ No
Describe how cooking equipment that cannot be submerged or put through a dishwasher be sanitized, such as, cutting boards, counter tops and other food contact surfaces?
Prior to use, will all produce be washed on-site? Yes No
Is there a planned location used for washing produce? □ Yes □ No If yes, describe
If not, describe the procedure for cleaning and sanitizing multiple use sinks between uses.
Is a mop sink present (12VAC5-421-2250. Service Sink)? ☐ Yes ☐ No If no, describe facility for cleaning of mops and other equipment:
Will an automatic generating chemical dispenser be installed at the mop sink? ☐ Yes ☐ No
Is there a dump sink at each wait station and bar? \Box Yes \Box No \Box N/A
Are all toxics for use on the premise or for retail sale (this includes personal medications), stored away from food preparation and storage areas?
Are all containers of toxics including sanitizing spray bottles clearly labeled? ☐ Yes ☐ No

^{*} TRAP is a fitting or device that provides a liquid seal to prevent the emission of sewer gases without materially affecting the flow of sewage or wastewater through the trap. An integral trap is one built directly into the fixture, e.g., a toilet fixture. A "P" trap is a fixture trap that provides a liquid seal in the shape of the letter "P". Full "S" traps are prohibited.

Are floor drains provided and easily	cleanable? □ Yes □ No
If yes, list location(s): _	

<u>Finish Schedule</u>: In the following areas, indicate which materials will be used such as, quarry tile, stainless steel, 4" plastic coved molding, etc.
