

# Virginia Frontline Provider Infectious Disease Advisors

## STATEWIDE CALL FOR INPUT FROM FRONTLINE PROVIDERS!

The Virginia Department of Health (VDH), in conjunction with the Virginia Healthcare-Associated Infections (HAI) Advisory Group, wants your feedback!

### PURPOSE

We are recruiting frontline providers across care settings and disciplines to understand the challenges of working with patients and staff on the prevention and control of multidrug-resistant organisms (MDROs). We would value your input in order to better support your efforts.

### TIME COMMITMENT

Minimal. Short conference calls will be scheduled when there is a specific topic to discuss, and you will have the option to provide input via email.

### PROVIDERS

May include but not limited to physicians, nurses, pharmacists, dentists, podiatrists, physician assistants, paramedics, therapists, technicians, technologists, and environmental services staff.

### POSSIBLE TOPICS

- How messages can be disseminated to frontline providers from statewide agencies
- Transfer of information between and within facilities regarding MDRO status and transmission-based precautions
- Best practices to educate patients and families on MDROs and infection prevention
- Infection control challenges
- Proposed Virginia legislation
- Statewide antibiogram
- Statewide and facility-specific HAI reports
- Education needs for frontline staff

### To volunteer or for more information:

Complete this survey <http://j.mp/2NIQ8sT> or email the VDH HAI/AR Program at [hai@vdh.virginia.gov](mailto:hai@vdh.virginia.gov).
