3.15.20 Virginia Beach Health District Confirms its Fourth COVID-19 Case

The Virginia Beach Health Department has reported its fourth case of COVID-19 in the Health District. The positive case is a woman in her 70's and is a contact of a previous case. They were international travelers to an area affected by COVID-19. Upon return to the U.S., they followed guidelines to remain at home and limit their contact with others. Upon development of symptoms, she was tested through the Department of Consolidated Laboratory Services. The Virginia Beach Health Department was notified on March 14 of the positive test results for COVID-19. To protect patient privacy, the health district will provide no further information about the patient. This case will be included in the statewide count of cases at www.vdh.virginia.gov/coronavirus.
