Legislation

Code of Virginia 32.1-111.15:1

HB 1197 and SB 867 | Effective 1/1/2019

Department responsible for stroke care quality improvement; sharing of data and information.

1. Implement systems to collect data and information related to stroke care.
2. Facilitate information & data sharing and collaboration among hospitals and providers.
3. Apply evidence-based treatment guidelines for transitioning patients to community-based follow-up care following acute treatment for stroke.
4. Establish a process for continuous quality improvement for the delivery of stroke care.

VIRGINIA ACTS OF ASSEMBLY – 2018 SESSION

CHAPTER 276

An Act to amend the Code of Virginia by adding in Article 2.1 of Chapter 4 of Title 32.1 a section numbered 32.1-111.15:1, relating to stroke care quality improvement.

Approved March 9, 2018 [H 1197]

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 2.1 of Chapter 4 of Title 32.1 a section numbered 32.1-111.15:1, to read:

§ 32.1-111.15:1. Department responsible for stroke care quality improvement; sharing of data and information.

The Department shall be responsible for stroke care quality improvement initiatives in the Commonwealth. Such initiatives shall include:

1. Implementing systems to collect data and information about stroke care in the Commonwealth in accordance with subsection B;
2. Facilitating information and data sharing and collaboration among hospitals and health care providers to improve the quality of stroke care in the Commonwealth;
3. Requiring the application of evidence-based treatment guidelines for transitioning patients to community-based follow-up care following acute treatment for stroke; and
4. Establishing a process for continuous quality improvement for the delivery of stroke care by the statewide system for stroke response and treatment in accordance with subsection C.

B. The Department shall implement systems to collect data and information related to stroke care that are nationally recognized data set platforms with confidentiality standards approved by the Centers for Medicare and Medicaid Services or consistent with the Get With The Guidelines Stroke registry platform from hospitals designated as comprehensive stroke centers, regional stroke centers, or acute stroke-ready hospitals and emergency medical services agencies in the Commonwealth and (ii) from every primary stroke center with supplementary levels of stroke care distinction in the Commonwealth. Every hospital designated as a comprehensive stroke center, primary stroke center, or primary stroke center with supplementary levels of stroke care distinction shall report data and information described in clauses (i) and (ii) to the Department. The Department shall take steps to encourage hospitals designated as acute stroke-ready hospitals and emergency medical services agencies to report data and information described in clause (i) to the Department.

C. The Department shall develop a process for continuous quality improvement for the delivery of stroke care provided by the statewide system for stroke response and treatment, which shall include:

1. Collection and analysis of data related to stroke care in the Commonwealth;
2. Identification of potential interventions to improve stroke care in specific geographic areas of the Commonwealth; and
3. Development of recommendations for improvement of stroke care throughout the Commonwealth.

D. The Department shall make information contained in the systems established pursuant to subsection B and data and information collected pursuant to subsection C available to licensed hospitals and the Virginia Stroke Systems Task Force, and, upon request, to emergency medical services agencies, regional emergency medical services councils, the State Emergency Medical Services Advisory Board, and other entities engaged in the delivery of emergency medical services in the Commonwealth to facilitate the evaluation and improvement of stroke care in the Commonwealth.

E. The Department shall report to the Governor and the General Assembly annually on July 1 on stroke care improvement initiatives undertaken in accordance with this section. Such report shall include a summary report of the data collected pursuant to this section.

F. Nothing in this article shall require or authorize the disclosure of confidential information in violation of state or federal law or regulations, including the Health Insurance Portability and Accountability Act, 42 U.S.C. § 1320d et seq.

2. That the provisions of the first enactment of this act shall become effective on January 1, 2019.

3. That the Department of Health shall convene a group of stakeholders, which shall include representatives of (i) hospital systems, including at least one hospital system with at least six or more stroke centers in the Commonwealth, recommended by the Virginia Hospital and Healthcare Association; (ii) the Virginia Stroke Systems Task Force; and (iii) the American Heart Association/American Stroke Association, to advise on the implementation of the provisions of this act.

Work Group: Virginia Stroke Website

The screenshot shows a web browser window displaying the Virginia Department of Health (VDH) website page for Stroke. The browser address bar shows "vdh.virginia.gov/stroke/". The VDH logo is at the top left, with the tagline "To protect the health and promote the well-being of all people in Virginia". A search bar is at the top right. A navigation menu includes links for HOME, ABOUT US, HOW DO I, HEALTH TOPICS A-Z, HEALTH DEPARTMENTS, DATA, NEWSROOM, PLAN FOR WELL-BEING, and CONTACT US. An orange banner with the text "LiveWell" is positioned below the navigation menu. On the left side, there is a vertical menu with links for Stroke, Stroke Infographic, About, Resources, Data, Virginia Stroke Systems Task Force, Virginia Stroke Coordinators Consortium, and Contact Us. The main content area features the heading "STROKE" with a blue underline. Below this heading, there are three sections: "What is stroke?" with a paragraph explaining that a stroke is a brain attack caused by blocked blood supply or burst blood vessels, and that over 16,600 Virginians have a new stroke each year; "Are you at risk?" with a paragraph listing risk factors like age, sex, ethnicity, smoking, alcohol, diet, and activity, and noting that treating conditions like high cholesterol, high blood pressure, and diabetes can reduce risk; and "What are the signs and symptoms of stroke?" which is partially visible at the bottom. To the right of the "Are you at risk?" section is a portrait of a man.

Work Group: Acute Stroke Treatment Strategies

Co-leaders: V. Ramana Feeser MD, Director of Quality and Safety/EM physician at VCU Health System in Richmond &

Sara Watkins MSN, RN, Stroke Program Coordinator at Riverside Regional Medical Center in Newport News

Update: Meeting monthly to identify the top 2-3 best practice strategies to optimize time to decision and decrease door to needle time.

Goals: Build a menu of highly recommended options of best strategies for hospitals to consider. Host consultation calls with hospital teams to assess needs and propose recommendations for quality improvement.

Work Group: Stroke Survivor and Caregiver Supports

Work Group: Hospital Stroke Inventory Survey

Status: Planning to pilot survey with 2-3 hospitals in February 2020
Full launch in March 2020.

Work Group: EMS Stroke Inventory Survey

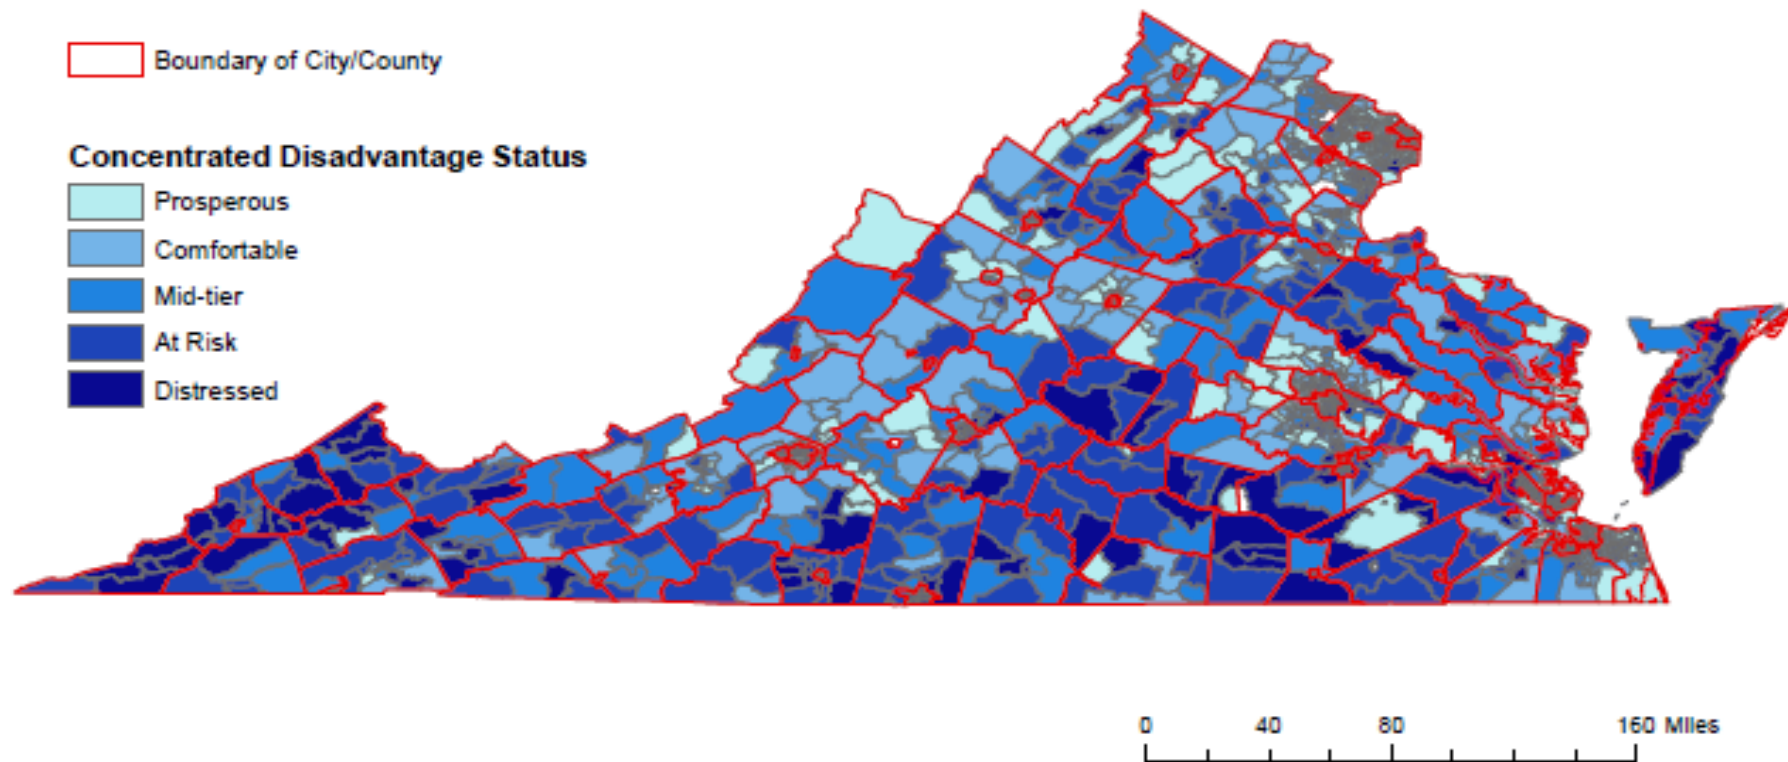

Status: Ready for full launch in February 2020 to all EMS agencies.

Data Council

Update:

- Reviewed data from the Virginia Hospital & Healthcare Association and the Virginia Office of EMS. Analyzed stroke hospitalization and readmission rates, as well as geographic distribution of stroke.
- Identified and prioritized geographic areas into three clusters:
High, Medium, Low
- Next Steps: Add a final layer of the Concentrated Disadvantage Index (CDI), Establish a hospital and regional stakeholder engagement strategy.
- Next Task: Convene TJC, DNV and HFAP to crosswalk data definitions in preparation for the development of a stroke registry.

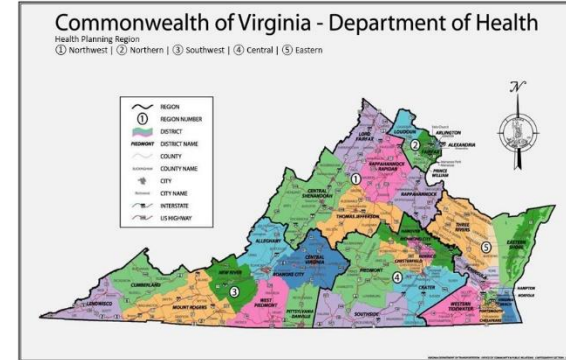

Concentrated Disadvantage Status in Census Tracts (within boundary of City/County): Virginia, 2013-2017

Concentrated disadvantage status categorizes census tracts based on the proportion of households per census tract with a high level of concentrated disadvantage. Concentrated disadvantage is calculated using five census variables: 1) Percent of individuals below the poverty line, 2) Percent of individuals on public assistance, 3) Percent female headed households, 4) Percent unemployed, and 5) Percent less than age 18.

Date: 1/22/2020

Priority Clusters (Stroke Hospitalizations) Categorized by Health Planning Region + Concentrated Disadvantage Index

Priority	Northwest	Northern	Southwest	Central	Eastern
High	Spotsylvania	Prince William	Salem	Richmond, Petersburg, Henrico	Virginia Beach, Suffolk, Chesapeake, Hampton
Medium	-	Fairfax, Loudoun	Roanoke County, Bedford, Lynchburg, Montgomery	Henrico, Chesterfield	Newport News, Norfolk
Low	Augusta, Rockingham, Fauquier	Loudoun	Franklin County, Tazewell, Wise, Pittsylvania, Botetourt	-	Accomack
CDI			Norton, Martinsville, Danville, Lee, Bristol, Wise, Roanoke City, Buchanan, Henry, Lynchburg, Dickenson, Galax	Emporia, Petersburg, Hopewell, Brunswick, Nottoway, Richmond, Colonial Heights, Charlotte, Cumberland, Dinwiddie	Franklin City, Portsmouth, Norfolk, Newport News, Suffolk
