Cryptosporidium

Round 2 *Cryptosporidium* samples for the LT2 Rule are required to be submitted to an analytical laboratory certified by the Virginia Division of Consolidated Laboratory Services (DLCS) for *Cryptosporidium*. The DCLS Laboratory Certification website provides a list of certified laboratories for *Cryptosporidium*. DCLS does not analyze drinking water for *Cryptosporidium*.

Laboratories interested in becoming certified for the presence of *Cryptosporidium* in drinking water samples should contact the Laboratory Certification Group at DCLS.

For questions and/or instruction on how to report Cryptosporidium or LT2 E. coli results to VDH-ODW please contact Lab Admin at labadmin@vdh.virginia.gov.
