<sup>†</sup>Data is reported as missing here if the clinician filing the case report omitted a response to this field in the data collection form.

‡More than one option may have been selected, so totals may sum to >100% of overall case total. Note: Cases in system where reporter indicated that there were no signs or symptoms of withdrawal were omitted from this case report, as they do not meet the standard case definition in use.

<sup>\*</sup>This report includes data recorded as of May 3, 2023.
