

In the U.S. and around the world, people are not getting access to the specialty care they need, when they need it, for complex and treatable conditions.

## Moving Knowledge, Not Patients

Through technology-enabled collaborative learning, ECHO creates access to high-quality specialty care in local communities.

Hub and spoke knowledge-sharing networks create a learning loop:

**Community providers learn from specialists.**

**Community providers learn from each other.**

**Specialists learn from community providers as best practices emerge.**

## Doing More for More Patients

### PATIENTS

- Right Care
- Right Place
- Right Time

### PROVIDERS

- Acquire New Knowledge
- Treat More Patients
- Build Community of Practice

### COMMUNITY
