

## Lake Anna - Status Report – No HABs at this time

Issued: Friday 6/17/22

Next Issue: on or about Wednesday 7/13/2022

● Harmful algae (cyanobacteria) concentrations are below safe levels.

### HELPFUL TIP:

Visit [www.SwimHealthyVa.com](http://www.SwimHealthyVa.com) and click on the Harmful Algae Bloom Map to review sample results near you!

Expand the map using the symbol in the upper right hand map title bar, then click on the magnifying glass. You can search my location name or address!

Monitoring at 5 sites by boat in the upper section of Lake Anna (above Rt. 208) and 1 site at the State Park beach were collected on (6/7/22). The HAB map and this status report have been updated and are posted at [www.SwimHealthyVa.com](http://www.SwimHealthyVa.com). The next sample event (weather permitting) is anticipated for on or about Thursday July 7<sup>th</sup>.

### When in Doubt, Stay Out!

Avoid swimming, fishing or letting your children or pets play in bodies of water that:

- Smell bad
- Look discolored
- Have foam, scum, or algal mats on the surface

## BE AWARE of Harmful Algae Blooms

Water quality is tested to determine if health risks may be present.

During an algae bloom, water may have surface scum, mats, or films with red, green, white streaks, or glops.

For more information or to report an algae bloom visit [www.SwimHealthyVA.com](http://www.SwimHealthyVA.com)

To report a HAB-related illness contact the HAB Hotline at 888-238-6154.
