**Have you been diagnosed with COVID-19 illness, but are not in the hospital?**

Join us in our fight against the virus SARS-CoV-2, which causes COVID-19 illness.

**What is the study about?**
This study will test whether a transfusion of plasma that has antibodies from persons who have recovered from COVID-19 is a good treatment option for patients with early COVID-19 illness.

**What's involved?**
- One plasma transfusion
- Up to 5 study visits*
- Blood tests
- Physical exam and medical history
- Nasal swab test for COVID-19
- Daily symptom log

*You may be compensated up to $200 for study participation

**Can I join?**
You may be able to join if you:
- Are 18 years of age or older
- Tested positive for SARS-CoV-2 virus within the past 6 days or less
- Have had any COVID symptoms within the past 6 days or less (cough, shortness of breath, fever, chills, muscle pain, headache, sore throat, new loss of taste or smell, neurological changes, or new skin rash)
