COVID-19 Specimen Collection and Rapid Point of Care Testing Standing Order

[INSERT PHYSICIAN OR PRACTICE NAME]

[INSERT DATE ISSUED]

This standing order authorizes specific ______ (practice name)_________ trained personnel to collect anterior nasal swabs for the purpose of performing rapid, point of care (POC) antigen testing for the detection of SARS-CoV-2 (the virus that causes COVID-19). This standing order also authorizes specific ______ (practice name)_________ trained personnel to perform the rapid, point of care antigen test.

Personnel Authorized to Collect Anterior Nasal Specimens:

- Physicians
- Registered Nurses (RNs)
- Licensed Practical Nurses (LPNs) serving under the supervision of an RN, physician (MD or DO), or Nurse Practitioner (NP)

Personnel Authorized to Perform Point-of-Care Antigen Test: list people who can do this

Period of Effect: This standing order is in effect for one year from the date of signature.
