

Now Hiring Case Investigation and Contact Tracing Contractors to Slow the Spread of COVID-19 in Virginia

Case Investigator

The case investigator will be positioned at a Local Health Department responsible for receiving reports of persons suspected or confirmed as having COVID-19, locating them, and interviewing them in order to gather information necessary for public health case investigation and contact tracing.

Funding is anticipated to continue through the end of 2021.

Contact Tracer

The Contact Tracer will be positioned in a Local Health Department responsible for identifying and contacting individuals who may have been exposed to COVID-19 to provide necessary public health recommendations.

Funding is anticipated to continue through the end of 2021.

District COVID-19 PHN Testing Navigator

The COVID-19 Public Health Nurse Testing Navigator will assist local health department teams in conducting Community Testing Events and facilitating public/private partnership resources. This role will assist community members, especially those with access and functional needs, to access COVID-19 testing including at-home testing.

Funding is anticipated to continue through June 2022.

District COVID-19 Public Health Investigator

The COVID-19 Public Health Investigator will be positioned in a Local Health Department to lead investigative and analytical epidemiologic activities for setting-specific (i.e., School, Industry, Congregate Care) needs in the assigned district. Routine case investigation and contact tracing support is also expected.

Funding is anticipated to continue through July 2023.

District COVID-19 Mitigation Specialist

The COVID-19 Mitigation Specialist will be positioned in a Local Health Department and work to provide setting-specific subject matter expertise on interventions to reduce the transmission of COVID-19 in high-risk settings. This role will lead coordination, communication, and education efforts for setting-specific (i.e., School, Industry, Congregate Care) needs in the assigned district. Routine case investigation and contact tracing support is also expected.

Funding is anticipated to continue through July 2023.

District COVID-19 Data Manager

The COVID-19 Data Manager will be positioned in a Local Health Department to ensure the collection and analysis of case, contact, and other public health data at the local health district level in accordance with sound epidemiologic methods, disease surveillance procedures, statistical formulas and data management techniques.

Funding is anticipated to continue through July 2023.

If you are interested, please follow the instructions to apply with a partner staffing agency. Additional positions are available. You should indicate that you want to apply for a COVID-19 position through the Virginia Department of Health.
