

**VACCINATE  
VIRGINIA**

Help **3** friends get to the park  
for an ice cream party!

Wash your hands and grab your mask along the way!

**START!**

**FINISHED!**

**Kids ages 5 to 11 can get a kid-size vaccine!**  
It's how you can stay safe against COVID-19 and *have fun!*

**Parents:** Learn more and find a vaccination location at [vaccinate.virginia.gov](https://vaccinate.virginia.gov)

VACCINATE  
VIRGINIA

# Keep Kids Safe!

The FDA has authorized, and the CDC recommends, a kid-size COVID-19 vaccine for children ages 5 to 11. The vaccine is safe and helps prevent serious illness.

Also, make sure that children:

- Wear a mask in public to keep COVID-19 from spreading.
- Wash their hands with soap and water.
- Cover sneezes and coughs.
- Stay home when sick to keep everyone healthy.

**Parents:** Learn more and find a vaccination location. Visit [vaccinate.virginia.gov](https://vaccinate.virginia.gov) or call (877) VAX-IN-VA.
