

VDH Healthcare Coordination and Therapeutics Unit Healthcare Provider Open Forum Guidance Document

Purpose

To provide a forum for Healthcare Providers across the Commonwealth of Virginia to ask questions and seek important updates relevant to the COVID-19 therapeutics currently authorized for use under an emergency use authorization (EUA) by the Food and Drug Administration (FDA).

Target Audience

Healthcare Providers including prescribers (physicians, physician assistants, nurse practitioners), pharmacists, nurses, social workers, and other administrative personnel involved in either operational decision making at healthcare centers or those involved in administration or distribution of therapeutics.

Rules of Conduct

It is expected that all attendees will conduct themselves in a professional, respectful, and kind manner. This includes adhering to the host/panelists process for answering questions (chat, Q&A, raise-hand feature depending on audience size), and engaging in meaningful discussion relevant to EUA COVID-19 therapeutics only.

VDH staff and representatives reserve the right to remove individuals from the forum who do not abide by these boundaries.
