

When Can I Get Vaccinated?

While the vaccine supply is limited, COVID-19 vaccine will be offered in phases. People who are more likely to have severe COVID-19 illness and workers that are essential to the functioning of society will be offered the vaccine in the earlier phases.

If you are 15 years of age or younger, there is no need to answer any of the questions asked in this vaccine eligibility questionnaire. Vaccinations are not approved for those who are 15 years of age or younger.

If you are 65 years of age or older you are eligible for Phase 1b of Virginia's COVID-19 Vaccine Distribution Plan unless you meet criteria for Phase 1 A by answering yes to questions 1 and/or 2.

After you have determined what vaccination phase you are eligible for, you may pre-register for the COVID-19 vaccine at vaccinate.virginia.gov or call 1-877-VAX-IN-VA (1-877-829-4682) to speak to someone who can help you pre-register and answer your questions about the registration process.

Please list your race/ethnicity when you sign up for your vaccine and on the day of your appointment. We ask because this helps to ensure fair and equitable vaccine access and distribution to all Virginians.
