Do I need a COVID-19 additional primary dose or booster vaccine today?

Which vaccine did you receive?

Moderna or Pfizer

Are you immunocompromised? (as defined in Table A)

Yes

A additional primary dose of Pfizer or Moderna can be given 28 days after second dose

No

Are you 65 or older?

Yes

A booster dose of Moderna, J&J, or Pfizer can be given at least six months after second dose

No

Are you 18 or older?

Yes

A booster of Moderna, J&J, or Pfizer can be given at least two months after single primary dose

No

Are you 18+ and have one of the following: underlying medical conditions, reside in LTC facility, or occupational COVID exposure (as defined in Table B)

Yes

A booster dose of Moderna, J&J, or Pfizer can be given at least six months after second dose

No

No booster recommended at this time

J&J

Are you 18 or older?

Yes

A booster of Moderna, J&J, or Pfizer can be given at least two months after single primary dose

No

No booster recommended at this time

Are you 65 or older?

Yes

A booster dose of Moderna, J&J, or Pfizer can be given at least six months after second dose

No

Are you 18+ and have one of the following: underlying medical conditions, reside in LTC facility, or occupational COVID exposure (as defined in Table B)

Yes

A booster dose of Moderna, J&J, or Pfizer can be given at least six months after second dose

No

No booster recommended at this time
