

COVID-19 Data Resources

To view **total cases and deaths by locality and overall:**

- Visit the [VDH Cases Dashboard](#)
- Select “Blue Ridge District” from the “Geographic Sector” dropdown menu

To view **case count over the past six months:**

- Visit the [VDH Cases Dashboard](#)
- Select “Blue Ridge District” from the “Geographic Sector” dropdown menu
- Select “Past 26 Weeks” from “Select Date Range” options
- Select “Cases by Date of Illness” from “Select Measures” options
- Resulting data graph will show cases on a weekly basis

To view **cases, hospitalizations, and deaths by demographic:**

- Visit the [VDH Demographics Dashboard](#)
- Select “Blue Ridge” from “Health District” dropdown menu
- Data will be represented through counts or rates rather than percentages

To view **outbreak data:**

- Visit the [VDH Outbreaks Dashboard](#)
- Hover over Blue Ridge region to view outbreak numbers
- Resulting map will only show total outbreaks for the district overall

To view **testing data:**

- Visit the [VDH Testing Dashboard](#)
- Select “Blue Ridge” from “Health District” dropdown menu

To view **summary of vaccination data:**

- Visit the [VDH Vaccine Summary Dashboard](#)
- Choose an option from the “Select Vaccination Status” dropdown menu
- Hover over locality on state map

To view **vaccination by demographic:**

- Visit the [VDH Vaccine Demographics Dashboard](#)
- Select locality from “Locality Name” dropdown menu
- Choose an option from the “Select Vaccination Status” dropdown menu
- Vaccination counts shown on the left graphs, percentages on the right graphs
