Ms. Degen,

Effective Oct 1, 2021, Clearstream Wastewater Treatment Systems, Inc. will no longer manufacture, provide, or make available for sale or distribution in Virginia the N, NC, D, and DC series treatment units.

The DA and DAC series accomplish the treatment requirements met by the N and D series so the DA and DAC series will serve as the replacement for the above-mentioned units.

Clearstream understands that there will be units previously designed and permitted before Oct 1, 2021 that will require the N and D models, however all new permits and designs will need to utilize the DA model units.

Thank You,

A handwritten signature in black ink that reads "Lonnie Welch". The signature is written in a cursive, flowing style.

Lonnie Welch
Clearstream Wastewater Systems, Inc.
