mAb and Oral Antiviral Distribution Maps

Tracking Information
- To track mAb shipments, use the link provided here: https://asdorder.amerisourcebergen.com/btstoreui/trackmyshipment
- To track other Therapeutic shipments: log onto HPoP, go to Therapeutic Orders, then click the order you are looking to track
- All tracking numbers will populate once doses are shipped

Non-VTrckS Provider Enrollment in VaxMaX
- To enroll in VaxMaX as a non-VTrckS provider, follow the link provided here to the VDH mAb webpage: https://www.vdh.virginia.gov/mabs/
- Click the blue “Therapeutics Enrollment” button at the top of the page and answer all questions in the REDCap survey for enrollment to be completed
• In 24-48 hours, you will receive a verification email that your VaxMaX enrollment was successfully completed and that your HPoP information was uploaded, if applicable
• To access the REDCap Survey directly, follow the link provided here: https://redcap.vdh.virginia.gov/redcap/surveys/?s=K9ELDDPDLN

**mAb Availability Update**

- Regen-COV and Bam/Ete will continue to be allocated. Please note that Regen-COV and Bam/Ete are not felt to be effective against the Omicron variant of SARS-CoV-2
- Sotrovimab allocations are currently sitting at 1011 a week and are not anticipated to increase before approximately April 2022
- Evusheld is available for order
  - VDH has approximately 3000 doses available
  - Evusheld is not swept by the federal government (unlike the other mAbs)

**Oral Antiviral Availability Update**

- Both Paxlovid and Molnupiravir are on a two-week allocation cycle (last allocation was 01/10/2022)
  - For Paxlovid, all 2080 treatment courses have been allocated
  - For Molnupiravir, all 10860 treatment courses have been allocated

**CMS Code for Outpatient Veklury (Remdesivir) Use**

- Following a recent statement from National Institutes of Health (NIH) COVID-19 Treatment Guidelines Panel regarding therapies for COVID-19 Omicron variant, CMS created a [HCPCS code J0248](https://redcap.vdh.virginia.gov/redcap/surveys/?s=K9ELDDPDLN) for Veklury (Remdesivir) when administered in an outpatient setting
- Medicare Administrative Contractors (MACs) determine Medicare coverage when no national coverage determination exists, including when providers use FDA-approved drugs for indications other than what is on approved label
- MACs will determine Medicare coverage for HCPCS code J0248 for Veklury (Remdesivir) administered in an outpatient setting
- See [CMS COVID-19 Provider Toolkit](https://redcap.vdh.virginia.gov/redcap/surveys/?s=K9ELDDPDLN) for additional information

**Updates to the VDH COVID-19 Treatment Locator Tool**

- Please find the locator tool here: [COVID-19 Treatment Locator](https://redcap.vdh.virginia.gov/redcap/surveys/?s=K9ELDDPDLN)
- If you are not listed on the Locator Tool and provide appointments to the public, please email covid19therapeutics@vdh.virginia.gov to have your site added

**Upcoming COVID-19 Therapeutics Webinar Details**

- Registration links:
  - Wednesday, 01/26/2022 from 12-1 PM
  - Thursday, 02/03/2022 from 12-1 PM
  - Wednesday, 02/09/2022 from 12-1PM
  - Wednesday, 02/16/2022 from 12-1PM
  - Wednesday, 02/23/2022 from 12-1PM
