Group Feedback

Consider The Following Questions...

- Has the Goal been met? Adequately? Is more work required?
- If the Goal has not been met, is it still valid?
- Will legislation have to be introduced?
- Will a change in administration regulations be required?
- How will project be funded?
- Identify the affected parties and constituents?
- Long term or short term goal?

Additional Considerations....

- In general, what goals, activities and tasks will be required?
- Who will we need to communicate with, and how?
- What resources will be required?
- Who is lead?

Now What.....?

- Break out into groups
- Capture bullets in writing
- Facilitator should be prepared to report back to main group at 3:00 pm
 - Each group will be allotted up to 10 min. to report
